Foreword

Perhaps some day in the far distant future, you may chance upon a book as you rummage among the musty treasures of the dust-enveloped attic. Perhaps you may pick up this book, covered with dust, worn, old, and long forgotten. Perhaps you may east it carelessly from you, or perhaps you may take it to the light, and, with straining eyes, make out the almost illegible letters "The Durfee Record".

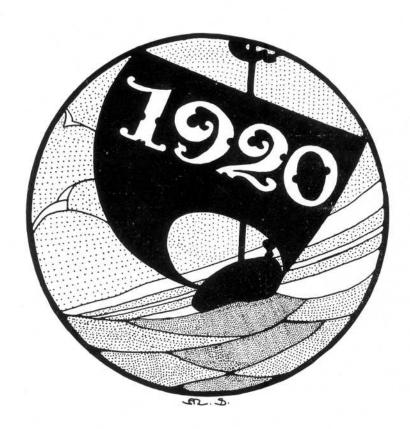

Then you will open this volume once again, and there will spring forth before your eyes, faces long since grown dim and features of the past. Then will time retrace his course, while, for a happy hour, you live again amidst your friends and companions of the class of '20.

So in the dim attic, will you sit, the book spread upon your knees, the failing rays of light tracing their straight course through the little window. Soon the light will grow dim so no longer may you see the words, no longer distinguish the features of those you have ceased to know. Yet still you will sit there, your head bowed, your heart full.

And then will you remember the days of Youth—the happy, optimistic crowd of companions—the bosom friends whom once you knew—the pranks, the jests, the jollity of a distant life.

So, for an hour, will you be happy in the past. And if this book brings to you but that single hour of happiness, then have our efforts not been in vain, then has our work been truly worth while.

Forty years on, when afar and asunder,
Parted are those who are singing today,
When you look back and forgetfully wonder
What you were like in your work and your play;
Then it may be there will often come o'er you
Glimpses of notes like the catch of a song—
Visions of childhood shall float then before you,
Echoes of dreamland shall bear them along.
—Edward Ernest Brown,

Gertrude A. Ainsworth

"ALICE"

Alice is a graduate of the Borden Grammar School who came to the portals of Durfee to imbibe the College Course. Her hobby is swimming and one only needs to see her in the water to know that she has chosen well. After leaving Durfee, she is undecided about her future plans.

"Forever foremost is her position."

Mabel Edna Allinson

 $((\hat{M}AY))$

Mabel is one of the class musicians. She has played both horn and cornet in our ensemble, in a most creditable manner. She comes from the Highland School, and is bound for Sargent's. There is no doubt that she will be sadly missed by her many classmates, among whom she is \$7\$ tremely popular.

"Dux femina facta"

William H. Almond

Our popular classmate came to us in the fall of 1916 from the Samuel Watson Grammar School. Although he admits quite freely that it is his delight to study Milton, we fear that Sir Arthur Conan Doyle is more in his line—or, perhaps, even Horatio Alger. Next fall, barring "flood, famine, or act of God' as the insurance policies say, the portals of the Massachusetts Institute of Technology will swing open to receive him.

"And gladly wolde he lerne."

Edith Mercy May Almy

"ED" "EDIE"

One of the best known members of our class is Edith, more popularly known as "Edie". She came to Durfee from the Westall Grammar School, and since that time, she has always been one of our most admired classmates. Her hobby is dancing, as you would plainly see if you were as regular an attendant at the drills as she. "Edie" is also fond of cooking and if, in passing though the Technical building, you should smell water burning, you would know it was "Edie", up in the cooking room trying some new dish. She intends to enter Beechward next year and then teach domestic science, in which pursuit we know she will succeed.

"Good nature is one of the richest gifts."

Marjorie Mowland Almy

``MARJIE'', ``MARJ''

"Marjie" journeyed all the way from Little Compton Grammar School up to Durfee and Durfee certainly is very glad that she did. She is one of our brightest pupils and although sometimes rather quiet, is, on the whole, responsible for lots of fun. "Marj" tells us that her hobby is coasting. She has not yet decided what school she will attend next year.

"True to your word, your work, and your friend."

Jacob Alpert

``JAKE"'

The John J. McDonough Grammar School claims credit for sending us Jacob. He is, indeed, an asset to the class for his work is of a high standard. He has not stated what his hobby is, but he is always apparently busy and is not very frivolous. Next year "Jake" will enter some technical school.

"Heroic built, yet of terrestrial mould."

Francis Kennedy Anderson

This pleasant fellow is a graduate of the Borden Grammar School. One of his hobbies is music, and it is rumored that Paderewski's manager has offered him a fabulous sum if he will take the place of the Premier of Poland. He amuses himself by reading as well as by playing the piano, perhaps so that he may be letter prepared to enter M. I. T. this fall.

"Deep versed in books."

Lester Bakst

"MIKE"

If you want to hear a new joke, just ask Bakst. He came here from the N. B. Borden Grammar School, where he had a great reputation as a scholar as well as an entertainer. He has charge of the jokes in our Record Book and he can put you wise to the best of them and then some. He expects to attend the Law School at Boston University next year and we all expect to hear good reports of him there.

"Hang sorrow, care would kill a cat, So therefore, let's be merry."

Marion A. Barlow

``MAYBE",

Marion came to Durfee from the Davenport, bringing her frivolous tendencies along with her. That is how she earned the nickname "Maybe." She is always ready for a good time, but nevertheless greatly to our surprise, she manages not to slight her work. She tells us that her hobby is dancing; just what we should have guessed! "Maybe" will greet Bridgewater next fall, still (presumably) on the lookout for dances and parties.

"Who mixed reason with pleasure, and wisdom with mirth."

Ethel Gertrude Bates

After completing her course at the Westall Grammar School, Ethel decided to enter high school. After spending two years at Tech, she finally wended her way to Durfee. Ever since her arrival she has been one of our most able and best-liked classmates. Ethel is fond of dancing, and delights in attending the drils, but she is still more interested in everything that pertains to outdoor life—skating, swimming and tennis, for instance—for truly, Ethel is a great out-of-door girl. She intends to take a course at Simmons next year.

"Give me the great outdoors to play in."

Algernon Hamilton Bell

"BELL""""DING-DONG""

"Ding-dong, ding-dong!" Whom have we here? Why, "Bell", of course. He came all the way from Swansea to attend Durfee, when he had finished his course at the Frank S. Stevens School. As we should expect from his residence, "Pell" is an expert farmer. May he never meet with drought, flood, or locust in pursuit of success in the line of agriculture, which, so he says, he enjoys.

"God the first garden made, and the first city, Cain."

Goldie G. Bender

Go'die came to Durfce after graduating from the Slade School. She takes all meda's offered for jovial, goodnatured girls. She claims cornet playing as her favorite diversion for she has many invitations to play in concerts. Music is naturally accompanied by the dance another line in which Goldie excels. It is to Goldie that we look for the latest steps in the modern whirl. We all wish Goldie good luck when she leaves the Commercial Class in June.

" 'Tis now the summer of your youth."

Cora R. Blais

"CORA"

Cora is a graduate of the Stevens Grammar School, who came all the way from Swansea to be with our class at Durfee. She tells us her favorite pastime is walking, but when a girl says walking is her pastime, it surely looks rather suspicious to us! When she graduates from Durfee she will become somebody's secretary.

"Hail, fellows; well met."

Jefferson Borden II

``JEFF"'

"Jeff" is a great lover of the open, to be confined in school is his one great misery. After graduating from the Westall School "Jeff" came to Durfee and chose the Scientific Course of study, his hobby being wireless telegraphy. Swimming, skating, boating and motoring are some of his favorite pastimes. "Jeff," being of an agreeable turn of mind has made many friends during his high school career. "Jeff" has settled his mind on Harvard Scientific for the further cultivation of his hobby.

Marjorie Borden

``MARJ"'

Pause awhile, gentle reader, and observe this noble graduate of the Westall School. Although dancing has proved a great attraction to her, we have noticed that cadet officers' uniforms run a close second. Her name might well be read among the best-natured in the class, for she always seems bright and happy. She will carry with her in the future the best wishes of her numerous friends in whatsoever she may deem worthy of her undertaking.

"Her voice was ever soft, gentle, and low, An excellent thing in a woman."

Robert G. Boylan

"BOB" "DOC"

After completing the prescribed course of learning of the N. B. Borden Grammar School, "Bob" wisely chose Durfee as his next stopping place for knowledge. He appears to be somewhat of a happy-go-lucky young man, but has shown his mettle whenever he felt in the proper mood. "Doe" has always been an active participant in Durfee's cheering section, and with his aid, has greatly helped Durfee outdo the cheering of its opponents. He also takes interest in all the popular sports—swimming and skating being the most enjoyable. "Bob" has decided that Dartmouth College will be his alma mater next year, where he intends to enter the pursuits of business life. Accept our sincere wishes for a successful business career, "Doc."

"Life is a series of trifles at best."

William Francis Brennan

"BILL"

Behold the detemined air of "Bill" Brennan! Our star athlete is a husky individual, as you can easily see. Bill is one of those who like to mingle Algebra with Athletics, and we all must admit that he can do both first rate. He comes from St. Joseph's School, and says that the only things he is addicted to are skating, swimming and football —of course! We are told that "Bill" intends to go out into the "Business World." Poor old "Business World!" If Bill can push on towards success as he can break through a football line, then Heaven help it!

"O, it is excellent To have a giant's strength."

Elmer Hanson Bridge

"BRIDGEE"

"Bridgee" was welcomed with open arms when he first came to us from the Slade School four years ago. All his classmates know him especially for the skill which he displayed on the baseball diamond. Though his nominal position was behind the plate, he often dashed from it to chase fouls, and much to the dismay of the batters, he always caught them—unless, of course, they went over the fence. Besides being a fine catcher, "Bridgee" specializes in swimming, which may have something to do with his desire to attend the Massachusetts Nautical School.

"The brightest, still the fleetest."

Frances Archia Bridges

The originality of Frances Archia starts with the lack of a nickname and hobby and ends with—goodness knows what! After picking her from way up in Biddeford, Maine, we have endeavored, to the best of our ability, to "acclimate" her, but, alas, she came to us Frances Archia and Frances Archia she will remain. Although she is too modest to state her future vocation, we have noticed that she has east aside her man-hating attitude.

"The still stream oft runs deep."

Bertha M. Brightman

Bertha graduated from the Highland Grammar School and entered the portals of Durfee in 1915. She is of an athletic nature and enjoys all out-door sports. Next year, if you inquire for Bertha, you will find her at some Normal School.

Louise Brightman

"LOU" "BRIGHTY" "BILL"

Here's a person who's a real person. She has a wealth of nicknames, such as "Lou", "Brighty", and "Bill". Her hobby is coasting, which everybody must admit is a particularly enjoyable sport. In her younger days, she attended the Dighton Grammar School. Then "Lou" spent one year at Taunton High. Her amiable character will be housed at the Framingham Normal School next year. And we hope her power of inventing ways of enjoyment will never decrease.

"Education, when it works on a noble mind, draws out to view every virtue and perfection."

Doris S. Brown

"BROWNIE"

"Brownie" is one of 1920's happy-go-lucky girls. Gradua'ing from the Westall School, she entered the Normal division, but later changed to Commercial. Her hobby? "Brownie' says it is dancing, but her friends say "movies." She has not told us of her plans for next year, but wherever her interest may be, the good will of the class will go with her.

"Whate'er there be of sorrow, I'll put off till to-morrow."

Samuel Brown

"SAM" "BROWNIE"

"Sam" was one of the renowned prodigies of the John J. McDorough School where he was well known as a natural "shark" in all branches of study. He is a quiet fellow, but like all our great men he thinks deeply, and therefore is well liked by his many schoolmates. Either Columbia or Harvard is waiting to receive Sam in the fall and he sha'l make a conquest in Law.

"A mind serene in difficulties."

John G. Bruce

"JACK" "BRUCIE"

John Bruce came to Durfee from the Lincoln Grammar School in the fall of '16. He made a p'ace for himse f in the ranks of the renowned and has been held in high esteem by his many classmates. His hobby is athletics in which he has been noteworthy—especially in football. It is his expectation to enter Boston University in September, where he will tackle the law books.

"I may be handsome but I'm not fickle."

Louise C. Budd

"BUDDIE"

"Buddie'' came to Durfee from the Fowler Grammar School, and elected the college course. She is one of our most papular girls. Is it because her hobby is athletics? She certainly is a very enthusiastic rooter at the games, and also a good dancer. Next year "Buddie' plaus to enter Simmons. Your classmates wish you all kinds of success, Louise.

"Happy am I; from care I'm free! Why aren't they all contented like me?"

Angela Al. Burke

Angela came to us from the Highland Grammar School. This quiet friend entered Durfee, there to prove a delight to all the members of the faculty with whom she came in contact. Apparently she has a fondness for the G's, for German and Geometry are her favorite studies. Although she is not a girl of a great many words, we certainly are glad to have her among us.

"The friendship which makes the least noise is often the most useful."

Michael J. Bwaze

"MIKE"

After graduating from the J. J. McDonough Grammar School, "Mike" decided to devote himself still further to the gentle art of in electual development. Consequently, he enrolled at Durfee, where he has steadily advanced in his studies and also in the estimation of his fellow classmates. His hobby is the national pastime and evidently he must be a diligent outfielder, especially in the pursuit of high "flies" for we learn that he intends to enter the Air Service, after the parting of the ways. Clearly "Mike" wishes to aim high in life and naturally we all want him to reach the mark.

"It is better to aim high and miss, than to shoot low and hit every time."

John M. Cantwell

John Cantwell came to this school in 1918 from St. John's Prep. School, after graduating from the Wiley Grammar School in 1916. As he has musical talent, he studied at the New England Conservatory of Music while at Danvers, and will return there after graduation. While at Durfee although he was always quiet and taciturn, he became very popular among both his classmates and the faculty. His friends will remember him for his keen sense of humor and spontaneous wit. He will also be remembered as one of the Durfee Orchestral Club.

"His very foot has music in't."

Beorge Francis Carreiro

"KID"

George comes to us from the John J. McDonough Grammar School. Before the consolidation of the high schools, he attended Tech for two years. George is very active among the cadets for he is Adjutant this year. When he was a corporal in 1918 he succeeded in winning the John Davitt, Junior Medal. Owing to his geniality he has become Humorous Editor of the Record Book. Although not a member of any Durfee athletic team, George is an allround athlete. He is a favorite with all of his classmates and teachers and wherever noise and hilarity abound, there the "Kid" is sure to be found. George plans to attend the Massachusetts Nautical School next year, and he promises to be a deep-sea mariner of whom Durfee will be proud.

"A little one shall become a thousand, and a small one a strong nation."

Mary R. Cabanaugh

"CAVIE" "SMILES"

Mary, unlike most of us, didn't graduate from a grammar school, but from M. L. P. S., a private school. She first started her high school career in Tech, but two years later she came over to Durfee with the rest of us. She has a great many hobbies to pick from, including swimming, dancing, skating and reading. While here, she has always been rather quiet, but always cheerful, as her nickname "Smiles" suggests. Next year she intends to go to the Sunny South of the Golden West to finish her education, for she will travel all the way to Los Angeles, California, to attend school.

"Quiet as a nun."

M. Deane Clark

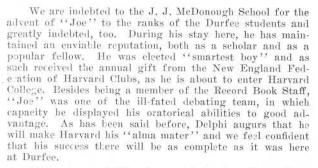

``DEANE"'

Deane is one of the scholars who journeyed daily from Assonet to attend Durfee. All his high school career was not spent here, however, for in his sophomore and junior years Deane attended the East Greenwich High School. The call of old Durfee was too irresistible to Deane, so now we have him with us once again. He says hunting is his hobby, so if we are ever inclined to kill we will surely look up Deane so that he can find us something to practice on.

"The man behind, the man behind the gun."

``JOE"'

"If ignorance is bliss, he must be quite unhappy."

Jennie E. Collins

"JEN"

After nine years at the Westall Grammar School, Jennie entered Durfee. The class is indeed fortunate in having "Jen" among its members. Blithe and good-natured, this young lady has always been one of the most popular girls in the class. "Jen" states that her avocations are athletics and dancing. Jennie will probably grace some higher institution with her presence in the fall. We all wish her the best of luck,

"O blest with temper, whose unclouded ray Can make to-morrow cheerful as to-day."

Norman Roderick Connell

"NORM"

Norman is a graduate of the Fowler School. The hobby horse he rides is a gasoline engine, for Norm boasts that he can master anything with a carburetor. His prowess in mechanics is well known to his many friends who have shared his troubles. He is also a cornet virtuoso, playing first cornet in the Fall River Boys' Military Band. As a member of the cadets "Norm" has reached the eminence of a sergeant's position, and besides, holds two medals, testifying to his knowledge of the manual of arms. His ability in this line has decided him to choose a military school—Norwich University, as his next "port of call."

"My kingdom for a horse."

Elizabeth Frances Connecton

"BETTY"

Elizabeth Frances Connerton came to us upon her graduation from the Slade School. "Betty" is one of the most popular girls of the class and has gained a host of friends since entering school. Dancing is one of her favorite pastimes. She is not certain as to her future plans but we know that she'll make good in her later undertakinge, whatever they may be.

"On with the dance; let joy be unconfined."

Dorothy Maude Copeland

"DOT" "LITTLE ONE"

"Dot" came to us from the Westall School and has gaily tripped her way through four years of study here. And we mustn't forget Dot's fudge, for whenever she appears at lunch time with a surpicious-looking box she is immediately beceiged, for we all know "Dot's" candy goes to the right spot. Though she could make her fortune in the candy businers, Bridgewater is to claim her in the fall. Our loss is their gain. Good luck to you, Dot!

"Short, but sweet."

John Raymond Coppinger

"RAY"

'Ten-shun! This attitude must be assumed in the presence of the captain—the captain, not of our military organization, but of our school debating team. For when "Ray" regins to speak, the stream flows forth freely, steadily, and convincingly. His achievements, however, are not merely oraterical for, by virtue of his eagle eye and slashing play, he rightfully lays claim to the junior tennis championship of the city. And we certainly must admit that he can "tickle the ivories" for we greatly appreciate his service as a member of our orchestra. We sincerely wish him the success which we feel confident he will soon attain.

"Flowery oratory he despised."

Raymond Costa

We shall all remember this finished product of the Lincoln School for his oratory. The liquid syllables which flowed so freely from his lips were at once the delight and despair of his opponents in the English or History class. He is a steadfast worker, and is pushing his way steadily on to his goal. Next year he will go to Tufts to take the two-year Pre-Medical course. Then, after four years in the Medical School, Dr. Costa will return, prepared to dose his old friends with the fragrant juice of the succulent eastor bean.

"Be thou a spirit of health."

Mary Coughlin

Mary graduated from the Sacred Heart Academy. After graduating, she entered Durfee only to stay with us for three short years, then going to Notre Dame Academy. While here Mary was very popular with both sexes. Mary gladly admits that the shiny dance floor has its attractions for her. Next year she intends to continue at Notre Dame Academy in Roxbury.

"Good things come in small packages."

Lawrence A. Coyle

"CUL"

"Cul" wended his way to Durfee after he graduated from the Sacred Heart School. He is a notorious "tire" man about town. Although "Cul" claims athletics as his hobby, he apparently does not have much time to indulge in this sport for he is a very busy man. He expects to enter the business world after leaving Durfee, where we wish him success.

Grace Louise Cullen

Grace, who came to us four years ago from the Slade School, has become very popular among both the teachers and the proble. It is to Grace that we all look for the very latest fashion in hair dressing. Grace claims skating as her favorite diversion and no one who has seen her gliding over the ice could wonder why skating fascinates her.

"She is pretty to walk with, And wit'y to talk with."

Porothy Louise Cunneen

"DOT" "DOTTIE"

"Dot" will long be remembered by those who know her as a pleasant, fun-loving Miss, with exceptional ability in dancing as well as in scholarship. As her classmates know, she possesses that sweet nature which is not predominant in most of us. She came to us from St. Joseph's School, where she accumulated the knowledge which made her such an apt pupil at Durfee. Here she has spent four grand years, inter-mingling studies and dances. According to "Dot" dancing and swimming are her hobbies, but we are willing to wager that we could add a few others. Next year Dorothy expects to en'er Miss Neil's Kindergarten School. Whatever she does it is certain that she will carry with her the best wishes of the class of 1920.

"She speaks, behaves, and acts just as she ought."

Kathryn Irene Natalie Bailey

"KATH" "KAT"

Well, just look who's here! The Davenport School is responsible for this addition to the class of 1920. We are certainly glad that "Kath" decided to grace us with her presence, for without her the class would lack one of its best-natured and best-liked girls. "Kath" claims athletics as her hobby, but how about dancing, "n' swimming, "Kath"? We are sure that Sargent's will gain a most capable student in "Kath" next year.

"Haste thee, Nymph, and bring with thee Jest, and youthful Jollity."

Florence K. Daley

Florence attended the Westall School for nine long years and then proceeded to Durfee for further enlightenment. Florence is partial to mathematics. She is also very fond of the strenuous life and enjoys dancing and swimming with equal zest. Next year will see her at some advanced school of learning and we feel sure that she will make a name for herself no matter where she goes.

"Thy modesty's a candle to thy merit."

Howard Ellwood Dabis

"HAL"

Diving is his hobby, and he dove from the Highland Grammar School straight into our midst. "Hal" is the possessor of a roving nature which, we have noticed, he directs towards Taunton. We have no doubt of his future success at M. I. T., for even his father admits that he is a good worker. Dancing has a great attraction for "Hal", and he may be seen "jazzing" wherever there is a band. Good luck to you, "Hal", but beware of policemen.

"Behold, our prodigal son!"

Mary Ruth Dedrick

· "RUFUS"

We like to call her "Rufus", but besides this, know her by no other name than Ruth. Her hobby is walking, and who wouldn't like to be her companion? Long years ago, Ruth came to us from the Westall School. Since then, she has risen in popularity due to such outstanding qualities as the ability to think, which is so fortunate an endowment in any case. She has also a very pleasing disposition. All in all she is a most pleasant personage.

"The best preparation for all the uncertainties of futurity consists in a well-ordered mind and a good conscience."

Italo De Francisco

"ITALY"

Italo sailed about two thousand miles to come to Durfee. He has only been here a few months but has already surprised us all by his ability to master the English language and the American customs. Italo was a collegian at King Humbert's Methodist College of Rome. He was studying for a professorship when his family decided to come to the United States. Italo has won many friends in the short time that he has been here. He has not yet decided what he will do next year, as he intends to go to Pennsylvania. Most likely he will continue his interrupted career.

"He chose a distant school."

Margaret Genebiebe Dillon

"PEGGY"

After nine years at the N. B. Borden Grammar School, Margaret joined us as a freshman at Durfee. By her quiet and retiring manner, she immediately became a favorite among her classmates. She states that her hobby is dancing and anyone who attends our cadet drills will not in the least doubt her word. After receiving her sheepskin from old Durfee, Margaret will attend Miss Neil's Kindergarten School, where she will receive her training preparatory to assuming her duties as a teacher. We all wish "Peggy" the best of luck as we are sure that she will be a most successful teacher.

"Silence is the sleep that nourishes wisdom"

George M. Dixon

"DICK"

"Dick," named after the notorious comedian, George Dixon is one of the alumnus of the Lincoln Grammar School. George claims wireless as his hobby and upon looking into the matter we find that he is a pretty clever operator. In the future we expect to hear of his inventing some new style of wireless which will astound the world.

Helen Valnette Dodge

"DIDGIT" "DODGIE"

Upon graduating from the Westall "Dodgie" enlisted with the rest of us for four years at Durfee, which she has divided between work and play. Her hobby is athletics, she tells us, but we all guessed this fact as "Dodgie" is one of the stars of the seventh period Physical Culture class on Wednerdays. In Spanish and at story-telling she is especially good, and no gathering is complete without her. Always ready for a good time, "Dodgie" is one of our most popular, fun-loving girls. Next year she will enter Dr. Sargent's Physical Culture School so that her hobby may become her work. We know she will succeed.

"For she's a jolly good fellow."

Charles Nelson Doe

"CHARLIE", "JOHN"

He is called "Charlie" for convenience, and "John" for variety. Perhaps he can still remember the days when he learned how to spell all sorts of big words at the Westall School. "Charlie" is a baseball enthusiast. Most Does are baseball players, and our friend is keeping up the reputation of his name. "John" is going to continue the study of drafting with the American Locomotive Company of Schenectady, New York, so we won't be surprised to hear of him as an extremely good draftsman. Anyway, he will be a man of strong personality and sound principle.

"Blessed is the man who expects much, for he will not be disappointed."

Bridie Rita Donoban

"BRIDE"

"Bride", after securing her diploma from the St. Mary's School, sought the halls of learning of Tech and Durfee. During her four years at High School she has been one of the most popular and attractive students in the Commercial division, and is undoubtedly the beauty of that group. She certainly can dance, and is just "it" in imitative dancing. "Bride" has not yet decided what school she will later attend.

"She's all my fancy painted her, She's lovely, she's divine."

Charles Dowd

"CHARLIE"

Zip—and in a cloud of dust "Charlie" is off for Providence. Providence, did you say? Although the "Whaling City" claims to be Charlie's birthplace, his thoughts seem to dwe!l upon Providence. Perhaps it is because he intends to enter Brown next year. Who knows? Wherever he goes his presence will not remain long obscure for Charlie is anything but quiet. In his sophomore year he made the debating team and in his senior year he was elected president of the Forum. Motoring and reading are his hobbies, while musical comedies would sadly miss his approving presence. Whether it be recess or math, recitation Charlie is "right in the swim" and who knows but what, if talking makes a great statesman, there may some day be a Senator Dowd?

"He deserveth all he hath received."

Janice French Downey

"JAN."

Here is "Jan" who came to us from the Highland School. Although she started in High School in the Normal Course, other courses offered more interesting studies, so Janice decided to become a "Special". "Jan's" hobby is dancing; nobody disputes that fact, for she is always present at the drills. "Jan" also plays the piano remarkably well. Next year she will take a post graduate course at Durfee.

"It's the songs she sings and the smiles she usars That make the sunshine everywhere."

Lois Virginia Dubois

``GYP"```DUBY"```LO"

We are indeed grateful to the Slade Grammar School for furnishing our class with such an able student as "Lo". Although of a somewhat quiet nature, she has done much to make our class a success. "Lo" is very fond of dancing, but swimming is her specialty, for she is a true outdoor girl. Next year she expects to enter Ward Belmont, where we are all sure that she will be as great a success as she has been in High School.

"Skilled was she in sports and pastimes."

Beatrice P. Durfee

"BEE"

"Bee" came to us from the William S. Greene, a school which has sent us many hard workers. For three years she took the college course, mastering all her subjects. Then she decided to try the Secretarial Course and during her senior year she has diligently manipulated a typewriter. She is one of our very quietest girls but none the less liked for we all enjoy "Bee's" pleasant company and value her thoughtful opinions. When "Bee" starts to talk we all sit up and take notice, for we know it will be interesting and valuable. The business world will claim "Bee" next year, and we know her success will be inevitable.

"Her ways are quiet, happy ones."

Mary Rock Dwyer

(MAY)

Her nickname is "May," but if it were "Winsome May" the "winsome" would be very appropriate. In fact, it is precisely the adjective to use in describing her. To be sure, she is always present at Music Hall when the cadets hold their drills, for her hobby is dancing. "May" came to Durfee from St. Joseph's School and from Durfee she is going to Bridgewater. We know that she will make an ideal teacher and that all her pupils will "just love her," for she will never, never scold 'em when it isn't necessary.

"Smiles, like the sun, brighten every object on which they shine."

Jessie Carr Eldredge

"JESS"

And here we have our romantic Jessie, who adores pink bows and grey shoes. She is a blonde with slender form that makes you think of a willowy reed in a breeze. It is remarkable how such a small head can hold so much. She is a graduate of the William S. Greene School, where she first learned to indulge in day dreams in class and take an optimistic view of life. But we must say that Jess can do a lot of other things besides day dreaming, for she is an excellent artist, as you may see by her sketches adorning this Record Book.

"She is tall and slender and divinely fair, Always merry and free from care."

George Harrison Emerson, Ir.

"EMIE" "GEORGIE" "SHRIMP" "PIMP"

From such a list of nicknames how is a poor mortal supposed to pick one? "Emie" ever was a modest youth, in fact, too modest to even claim a hobby, or, "Georgie," is it that you have so many that you cannot choose one? "Shrimp," having learned all there was to be imparted at the Highland Grammar School, joined our class in search of further knowledge. "Pimp" is now the sole occupant of a special course, or perhaps we should say, very special judging from his frequent free periods; however, we wish him all the success possible in all his future specialties.

"Not to know me argues yourself unknown."

Ida Ruth Epstein

"IDE" "DIMPLES"

Ida Ruth Epstein, the dimples girl of the class, came to us after graduating from the John J. McDonough School. "Ide" likes her commercial studies very much, for she expects to be a stenographer in the office of some "nice young man" some day. Either she has some one in mind, or vice versa, for the fair damsel seems to know what she's talking about. Ida likes outdoor fun, and declares that she loves motoring best, even when the "motor" is a Ford!

"With gentle yet prevailing force Intent upon her destined course."

Rose E. Epstein

"EPPIE"

Enter the dark fairy under the caption of Miss Rose E. Epstein. This beauty, noted for her dark raven hair and roving eyes is a member of the Secretarial class of 1920. She is a modest and unassuming Daughter of Eve, whose chief pleasure in life is to tackle hard lessons and get good marks in them. This love for study was acquired within the portals of the John J. McDonough School, but for the life of us we cannot see where Rose acquired a love for dancing, unless her exuberant youth bubbles over unrestrainingly and must find an outlet in fox trots and one-steps. Also she has confided a deep secret to us—a secret which we must now reveal to you—"Eppie's" hobby is whistling!

"Lovely . . . is the light of a dark eye in woman."

Clara Frances Ebans

Before entering Durfee, Clara attended the Assonet school. Clara seemed to fear being referred to as a "healthy looking country maid," but we leave the reader to decide her title. Clara's favorite study is shorthand, for she says she just loves to take dictation. Clara is undecided about her choice of a future outlet for her energies, but she may become a stenographer. Of course, if she doesn't decide to enter the business world, we can readily surmise what will happen, sooner or later, to this fair maiden.

"There's in you all that we believe of heaven."

Constance Feeney

"CONNIE" "WEENEY"

"Connie's." chief aim in this world just now is to have a good time. No one doubts her success in this line, for she is a popular girl, whose happy, bright countenance and disposition everybody likes. No football or basketball game is ever held without "Connie's" presence. All must step aside when "Connie" comes racing along in her little "Chev." She expects to honor Wellesley with her company next year.

"Here's to the lass of the class, But, oh! the class of the lass!"

Henry J. Feitelberg

"HEN"

Henry is one of the McDonough School's graduates, who came to Durfee to imbite the College Course. He claims athlytics as his hobby and one only needs to look into his record to know he has chosen right. He is undecided about his future education, but we are sure that where ever he goes he will be well received.

Mari

Francis L. Fitzgerald

``FITZIE"'

Will the meeting please come to order? Who's that, you say. Why, that is "Fitzie", the president of the Commercial Club. He graduated from St. Mary's School and wisely took the Commercial Course at Durfee. Although he claims fooling and talking for his hobbies, we disagree with him. "Fitzie" will enter Boston University in the fall where he will continue his busisess course.

Cecile F. Forest

"CIL"

This sylvan demoiselle with the Cereal name is noted for her sympathetic fiddling. Oh, how she can play! Why, she plays so well that her rendition of "Hearts and Flowers," a la tremolo, plunges her audience into tears. Besides fiddling, "Cil" studies; besides studying, she dances; besides dancing—well, she does everything that a well-brought-up young lady does in school and out. The Sisters of the Dominican Academy first set her feet upon the path of knowledge. Cecile is puzzled as to her course next year. Bon voyage!

"A smile in her eye."

Gladys C. Forster

"GLADIE"

Step aside and let this smiling maiden pass. Oh, yes, this is "Gladie." She graduated from the William J. Wiley School four years ago, and then joined us here at Durfee. She elected the college course, since it contained her favorite study, Latin. She says she has one and only one hobby, and that is swimming—but, Oh, My! what about talking? In spite of her chatter, Gladys is an "honor" student, well liked by her fellow pupils. After graduation, she hopes to settle down in Connecticut College.

"Be merry and enjoy your cheerful thoughts."

Mildred A. Houlds

"MIL"

"Mil," always full of fun when she attended the Fowler Grammar School, is not in the least changed now; we hope she continues in her merry path through life. Upon entering Durfee, Mildred chose the college course, her fancy centering on Spanish. Despite her tendency for joking she has been a faithful and accomplished student. Always ready with her cheery smile, "Mil" has secured the love and esteem of her many friends. Mildred's great sport is skating, as her ability in this direction plainly shows. She thinks that she will attend either the New England Conservatory of Music, taking up vocal culture, or, perhaps, Sargent's. We all feel confident that "Mil" will gain the same success that she gained in Durfee.

"Mine is the merry path."

Albert Franklin Fyans

"MAJOR" "KID" "FRANK"

'Ten-shun!—allow us to present "Major." Studies seldom bother Frank, until the day when tests are due and then he has a severe headache, or forgets to get up in the morning. As we would expect, the leader of our cadet battalion has chosen hunting for his hobby, but the question that arises in our minds is, "Hunting what?" How could Uncle Sam ever have fed the multitude if Frank hadn't answered his country's call and raised crops for a summer? The N. B. Borden school may well be proud of their graduate, and so may M. I. Theartily hail its coming genius.

"Don't B sharp, don't B flat, just B major."

Belle Frances Galkin

"BLONDIE", "BELLY"

Belle Frances Galkin, alias Blondie, received her diploma from the N. B. Borden School, and straightway set out for Durfee. Be'le likes her commercial studies quite we'l, and we give her credit for knowing how to study them, and still manage to have some fun. Belle's hobby is dancing, and her ambition has a great deal to do with it. Some girls in school carry pocketbooks about with them—not Belle—she carries a litt'e vanity case. After graduation, Belle is going to be her father's stenographer for awhile. But some day, you may hear that she is starring with the Ziegfeld Follies!

"I can enjoy her . . . when she dances."

Daniel Francis Gallery

``DAN",

We owe much to the Davenport School for giving us this second Daniel Webster. During his years at Durfee, "Dan" has received all "A's and B's"—why, he does not even know what a "C" means. In German he has especially starred, and has startled his classmates by his knowledge of this language. "Dan" says that his hobbies are all forms of sport, especially baseball, in which he is said to be a second "Ty" Cobb. Next year Holy Cross will be the field for Dan's scholastic endeavors, and we are sure that he will make a name for himself there.

"And still they gazed, and still their wonder grew, That one small head could carry all he knew."

Spyros Constantine Georgiopolos

"Spy," as he is known, is another of our great athletic stars. He is an invincible member of our basketball and football teams, as well as pitcher on our baseball team. He is captain of the basketball team and his extraordinary shots are the envy of all beholders. "Spy" came to us from the Lincoln School and on leaving Durfee expects to continue his education at the Renssalear Institute.

"He is well paid that is well satisfied."

Hirginia Constantine Georgiopolos

"VIRG" "VIRGIE"

Virginia is a daughter of the fair land of Greece. After coming to Fall River, "Virgie" attended the Lincoln School, and then came to Durfee to join us. Like most girls, "Virgie" likes to dance, but her most enjoyable hours are spent in outdoor fun and reading. Virginia likes her commercial studies very much, but there are also many other things she likes to do; so, at present, "Virg" is undecided about what she will do after graduation. However, we all wish her loads of good luck in her future undertakings.

"Skilled was she in sports and pastimes."

Berna Gilchrist

"VEE" "BILLIE"

"Vee" proudly states that she acquired her first steps in learning in the Westall Grammar School. During her stay at Durfee she has gained many friends because of her good nature and agreeability. She says she expects to be someone's stenographer after she graduates from Durfee. Her favorite sports are boating and outdoor games.

James H. Gildard, Jr.

"JIM"

"Jimmy" Gildard is a graduate of the Stevens School. His special accomplishment is a thorough understanding of automobiles, gained, undoubtedly, during his long and valuable service as a Maxwell and Paige dealer. His winning ways have won for him the respect of all of his classmates. When he drives away from Durfee he will steer towards Boston University.

"Rattle his bones over the stones."

Helena U. Gould

"LENA"

"Lena" is one of the very few pupils who have come to us from the North Fall River School. She is very quiet in school, and is seldom seen at our drills and social affairs. Her hobby is athletics. If some day when you are ill, a dainty little Miss with light hair calls on you, don't be surprised to find that it is Helena, for she is going to start training next year at Truesdale's Hospital.

"Still water runs deep."

Ruth Gourse

"RUFUS" "RUTHIE"

A pretty girl, and a nice girl, and a smart girl is Ruth Gourse. She can sing well, dance well, and draw well; but first of all, she lacks but one thing—love of study. As to her popularity, her activities will bear sufficient witness. During her freshman year at Tech she was elected Vice-President of the class. She is a sociable, happy-go-lucky maiden. Her hobbies are swimming and skating, but we expect that she shall hang out an "Excuse My Dust" sign eventually. This fall, she intends to enter Sargent's Physical Culture School. We wish her all the success in whatever she may undertake, and hope that she may be able to take life elsewhere as easily as she has here at Durfee.

"Good nature is one of the richest fruits of pleasantness."

Sidney Norman Gourse

"NORM" "GOURSIE"

"Norm" arrived in the halls of Durfee from the N. B. Borden Grammar School, where he left behind him a most successful record. "Goursie" soon grew accustomed to the Durfee atmosphere and speedily made many new friends. Besides gathering in a large number of A's "Norm" also indulges in athletics when he is not working in the "Hub." Next year the best wishes of the class go with "Norm" to the University of Pennsylvania.

"Gentle breezes waft him onward."

Loyal M. Grant

Lift your heads and if you possess strong enough necks you may gaze upon the linear majesty of the world's tallest man, Captain Loyal Grant. From the time when he first left the Highland School to enter Durfee, Captain Grant has striven to prove by his conduct during the recess hours that he is the champion long distance eater of the country. When he has downed all contestants here, he will pass on to defend his title from his opponents in Boston University.

"Appetite comes with eating."

Lawrence E. Grinnell

"LAURIE"

"Laurie" is a product of the Bridgeport Grammar School of Tiverton, R. I. He has cheerfully come all the way from our neighboring state each morning for the purpose of being with our class. "Laurie" is an athletic man liking dancing, skating, athletics and boating. He intends to enter the North Easton Engineering School in the fall. The best of luck be with you "Laurie" old boy.

"O, how I hate to come up in the morning!"

Lillian Grinnell

"GRINNY", "LIL"

Lillian Grinnel decided to enter Durfee after graduating from the N. B. Borden Grammar School. "Grinny" is a very quiet po:son, a lover of good books and music. Her favorite pastime is canoeing. We are sure that "Lil" is some "Canoer." In the fall, Lillian will enter Simmons College and there is no doubt that she will keep up her reputation there.

"A quiet tongue may hide an active brain."

Raymond Griffiths Hampson

"RAY" "SHRIMP" "HAMPY"

We take great pleasure in introducing "Ray," a product of the Susan H. Wixon School. "Ray" claims a fondness for swimming and skating, but we have reason to believe that "cookies" might well be added to this list. However that may be, we must congratulate the Tufts Medical School, where he will complete his education.

"Variety is the spice of life."

Jeremiah Jl. Harrington

``JERRY",

"Jerry" came to Durfee from the Davis Grammar School. Although his hobby—athletics—would seem to include all forms of exercise, we fear walking is omitted. For "Jerry" generally gets to school about 8.30 instead of 8.15. We hope that he will be a little more punctual in getting to his classes at M. I. T. next fall.

"Better late than never."

Louis Edmund Hathaway

"LOUIE"

"Louie" came to Durfee from the Davenport School where he was a star not only in athletics but also in his studies. In the freshman year he was elected president of the class. Football, basketball and track have occupied a good deal of his time. However, Louis is by no means a laggard in his studies, for he is one of the most brilliant scholars at Durfee. Still he has enough time left from his athletics and studies to be a sergeant in the cadets. Louis is also a business man. He is business manager of the basketball team and of the Record Book. Brown University is his choice for the next few years, and then he will go to the Harvard Medical School. In future years, we may call on "Doe" Hathaway for aid.

"I dare do all that may become a man,"

Jennie L. Haworth

``JEN"

"Jen" graduated from the N. B. Borden Grammar School, and then went to Tech, but upon the consolidation of the two schools she came into our class at Durfee. She is one of the most popular members of the class and is well liked by everyone who knows her. "Jen" claims dancing for her hobby and we can vouch that she has chosen well for she is always surrounded by a group of admirers. "Jen" doesn't know where she is going next year, but we have our suspicions that she is on her way to some secretarial school.

Deborah Barry Healy

"DEB

"Deb" comes from the N. B. Borden School. She is very attractive, and hence very popular—among both girls and boys—especially as she is a good dancer. For several years she has played cornet in the High School orchestra. Besides performing on the cornet, she is an accomplished mandolin player, thus doubly proving her musical qualities. At the close of her course, she will attend Miss Niel's Kindergarten School.

"A careless song . . . does not misbecome a monarch."

Elsie S. Heyworth

"ELS"

We have the Upper New Boston School to thank for "Els." Much thanks is due, for she is an apt pupil and a cheery one. Elsie started her course of study at Tech, and finished it at Durfee. Dancing is "E's" hobby, and she has certainly danced her way into the favor and friendship of her fellow students. When Elsie has graduated she will enter the medical world, beginning by taking the Training Course for Nurses at the Union Hospital. We sincerely hope that she will succeed in the praiseworthy profession which she has selected.

"We have been friends together."

Jane Agnes Higginson

``JED", ``JEN",

Hail to "Jed," one of the most active and best-liked girls in the class. The Lincoln School prepared "Jed" for Durfee, which she entered in 1916. She is very carefree but we notice that she is in favor of preparedness, for she is seldom caught unawares. "Jed" is very fond of dancing and swimming, but besides that she must take an interest in fashion books, as she is one of the sportiest girls in our glass. Bridgewater will be rather a lively place after your entrance, "Jed."

"Whate'er there be of sorrow, I'll put off till tomorrow."

Meyer S. Hillman

"KIP"

Meyer decided to get away from the high-tensioned life of Broadway and Fifth avenue, so he came to Durfee to spend with us the last year of his high school career. Last year he was a student at the Stuyvesant High School at New York City. For the short time he has been here "Kip" has accumulated a large number of friends, due, no doubt, to his good nature and pleasing disposition. He is a genius at photography which, he admits, is his hobby. Next year, should his friends desire to see him, he will be found, in all probability, among the freshman body at M. I. T.

"For he's a jolly good fellow."

Madelaine Cecilia Horton

"MUDGE" "MADGE"

Oh, come and listen to the mocking bird, the mocking bird called "Mudge!" A singer, a daneer, a talented pianist, a speedy typist, a great penman—we mean woman!—and Heaven knows what else, is Madelaine Cecilia Horton, otherwise known as Mudge to her friends. A rising rival to Galli Curci is this sweetly disposed maiden, loved by all who know her and envied by many. Since the days of the Susan H. Wixon School, she has sung and daneed herself into favor everywhere she went. She expects to go to the N. E. Conservatory of Music, and we wish her the best of luck, for she has the stuff in her that makes successful singers.

"Brightly smile and sweetly sing."

Morris Horbitz

"MIKE"

"Mike" must carry a horseshoe around his neck and rabbit's foot in his pocket, for he's one of the luckiest fellows we've ever seen. He landed in this country from Europe on July 28, 1914, the day war was declared. Some luck, eh? During his enrollment at this school he attended Tech '18 debating team. His most distinguishing characteristics are his love for argument, superseded only by his hatred of Shakespeare and his willingness to dance anywhere and at any time. As he prefers a business career to a professional one, we hope to see him some day as president of a big food corporation arguing with the income tax collector.

"Every man has his appointed day."

Madeline Eberett Hunt

Madeline needs no introduction to most of us, but for the benefit of those who are so unfortunate as not to know her, we will give a little account of her past, present and future. Madeline graduated from the Lincoln Grammar School and since her arrival in Durfee, just four years ago, she has become a very popular member of our class. Her hobby is dancing and she certainly is a regular attendant at the dances, especially those given by the cadets. Madeline has not decided as yet as to the school that she will enter next fa'l, but we all wish her the very best of success.

"In full-blown flower of glorious beauty."

Clarissa Hyde

"CRISSY" "CRICK"

The Highland sends us our pretty Misses, for this is the grammar school which claimed "Crissy" for its own before she entered Durfee. During the four years she has been with us "Crissy" has piled up good marks and gained a reputation for pink cheeks and spotless shirtwaists. Her hobby is walking, so we know that accounts for the pink cheeks. Although she's very quiet, "Crissy" is such a good listener and has such a jolly laugh that we'd all be at a loss as to what to do without her. She has not decided what she will do upon graduating but we know she will work just as hard and sincerely at it, as she did at her studies in Durfee.

"When she smiles, ah, Then Heaven, itself, smiles with her."

Sarah Al. Isherwood

"SADIE"

Here is a demure young maiden, of complexion as fair as the dawn of morning, whom we all know as "Sadie." She honored the Slade School by her presence there for a few years. Sadie says she likes dancing and watching pologames and we all know how well she likes the movies. We eavy Bridgewater, when, next year, it will be graced with her smiling face. There is but one way of looking at it: what we lose somebody else gains—and so it is with this sunbeam.

"Peaches and cream."

Louise L. Ibers

Louise is one of the jolliest and best-liked girls of our class. No matter what the occasion or circumstances, whenever Louise speaks, smiles on the faces of her listeners are always in order, for all of her remarks contain some strain of wit or humor. She is a graduate of the Fowler Grammar School and claims dancing as her favorite pastime. When Louise departs for Bridgewater Normal, she will have our best wishes.

"There's fun in everything we meet."

Rhoda Phyllis Ibers

"PATIENCE " "ROD"

Behold the class fusser and joker! Rhoda came to us from the Westall School, young in life, with a hobby for athletics, including swimming, walking and riding. She chose to follow the Normal Latin course during her four years' stay with us. While sharing the joys of Durfee 'Rod'' has never shirked her studies, always managing to get her share, and more, of A's. In the future this brilliant fusser of our class intends to honor either Skidmore Art School or Bridgewater Normal with her wit and humor.

"Her wit invites you by her looks to come, But when you knock, it never is at home."

Clax fafes and tuxes

Grace Ebelyn Jackson

"GRACIE"

Although very quiet. Grace is of a very good-natured and jolly disposition. She passed her grammar school days in the William S. Greene S hool. Since she entered Durfee she has made us sit up and take notice of her original ideas. She is one of those girls who always has a plea ant smile for everyone. "Gracie" says her hobby is reading. We wonder? As yet she is unde ided as to her plans for next year, but whatever they may be we wish her luck.

"I will be as good as my word."

Eberett C. Jenness

"COUNT"

"Count" was a former member of the Borden Grammar School where he held down the backstop position on the baseball nine. Although he has not made an attempt at the advanced athletics in our school he would sure have made good if he had been given a chance. "Count's" destination is Brown University, where he will go after the deeper subjects and make good.

"Give me the great out-doors."

Lillian Kapstein

"LIL"

After graduating from the N. B. Borden School "Lil" decided to enter our class in 1916. She loves reading, music and impersonating others. She spends much of her spare time in sketching fashions and people, and her work in the art department of the Record Book was of great value. In September "Lil" always returns to school as brown as a berry but far more vigorous! We expect great things from her in the future when she enters the Rhode Island School of Design.

"To see her is to love her and to love her but forever."

John F. Kenby

"FRANK" "JACK"

"Jack" comes to us from the Westall School. Although his chosen form of recreation is swimming, military matters follow a close second. In his four years' training in the cadets he has advanced steadily from private to corporal, from corporal to "top-sergeant" and from sergeant to his preject position of first l'entenant, the dut'er of which he discharges so admirably. All those who have served under him will te t'fy to his thorough under anting of the drill majual, and his a ill y to train it.

"That in the captain's but a chol ric word, Which in the soldier is just theopheny."

George Thomas Kelly

"KELL"

George Thomas Kelly, after graduating from the Westall Grammar School, thought Durfee good enough for him. George is one of the most popular members of the class. Cold weather does not bother him, for his hobby is skating. George has chosen Wentworth Institute as his next school, and there is no doubt that he will keep up his good record

"Blow, blow, thou winter wind."

Hazel Blsie Kenworthy

Among the students that came to us from the Samuel Watson School was Hazel. In the fall of 1916 she was enrolled in the Normal Course at Durfee, where she became a very energetic worker, to be sure. She is just the type of girl to have around on gloomy days to help cheer things up. Hazel's hobby is music, and we are sure that Alma Gluck will soon have a rival. Bridgewater will claim her next year.

"Learning is better than silver or gold."

Grina Minifred Kidd

"RENA" "KIDDIE"

Well, well, whom have we here? Why, "Rena" of course. One of the most popular members of our class and a product of the Highland Grammar School. "Rena" also possesses another great distinction, as she is the only girl in our class to complete her course in three years. She tells us that her hobby is dancing, and she has certainly proven that to us by her regular attendance at the school dances. "Rena" expects to enter Wheaton College next year. As to her success—well, we scarcely need to wish it to her.

"She was a form of life and light,"

Gladys Dom King

"GLAD" "GLADY"

Gladys Dow King, one of the fair maidens of the Commercial class, graduated from the Nathaniel B. Borden School. "Glady" is one of our rather quiet girls, and she never fails in her class recitations. But that doesn't mean that she is always studying. Now, if it weren't for the movies, Gladys might have spent all her time studying, but movies are Gladys" hobby, and besides do you blame her? This young lady does not expect to attend any further school of learning, but intends to become a stenographer. Good luck, Gladys!

"Happy are those who bestow smiles on others."

Kathleen Frances Kirby

"K"

The Lincoln School sent us "K" with her long, brown braid of hair and the sample pleased us so much that we hope it sends us many more like her. Her hobby is dancing but it doesn't hinder her from piling up good marks. She's quiet with a sweet smile and fond of the movies, a regular walking book of facts concerning the heroes. Her greatest trial during her four years with us has been to keep an "eye" on her gay chum, Dot. "K's" favorite study is English and in the fall she will enter Middlebury Academy where she can pursue this subject still further. Success go with "K".

"She is gentle, sweet and modest,"

Q

DURFEE RECORD

Blanche Laribiere

The Borden Grammar School deserves credit for sending in Blanche. She is a Technical girl of unusual ability, who has won the hearts of many. Her winning smile has made her pathway of work more like a garden of roses. After she graduates from Durfee she is undecided about her future, but we do not need to worry about Blanche for she will make good.

Clarence Fremont Latham

"FRE"

"The meeting will please come to order." Here is "Fre," our class president and most popular boy. The Davenport School certainly turned out some good material when they graduated you, "Fre," He started the Tech Course of Study on entrance into High but when the two schools united "Fre" chose the Scientific Course. Efficient in study and in all he undertakes, always jolly, and full of life, "Fre" has proven his worth and geniality and has won the estimation of both his teachers and fellow classmates. The fact that he is a good skater, dancer and swimmer has furthered him in his path of popularity. "Fre" intends to complete his course of study at M. I. T.; it is his ambition to become an electrical engineer. Our good wishes go with you, "Fre," and we wish you luck.

"Let all things be done decently and in order."

Milliam Laurens

"BILL" "BILLY"

Now we are come to one William Laurans, a "respectable" young man, as our Mr. Pope would say, and a good-natured sort of fellow, we add on our own responsibility. Bill received the rudiments of his education in the N. B. Borden Grammar School. Insofar as his hobbies are concerned, swimming and violin playing head the list. Probably he shall some day become a second Norman Ross or second Fritz Kriesler, who can tell? In either case, we can see no objection worth raising. Delphi argues that Bill will enter Harvard. We express the hope that his future will be marked by success.

"Good nature is one of the richest fruits of pleasantness."

Ethel Marion Labigne

With great reluctance, the Davenport Grammar School gave Ethel to us, that she might join our cheerful class. Ethel has not manifested any over-powering devotion to study, but would prefer her mandolin and a few of Beethoven's sonatas, to spending the afternoon on her lessons. She has, we all admit, become a great serenader of no small ability, and is ever ready to play the very latest dance music. As we know, musical people like dancing, so why not participate in the "merry whirl?"

"As merry as the day is long."

Arthur Haw

``GYP"'

"Gyp" graduated from the Slade Grammar School and entered Tech, but when the two schools united he became a member of our class. He claims canoeing as his favorite pastime. After leaving the portals of Durfee, "Gyp" will go to either Wentworth Institute or the General Electric School.

James Howard Leahy

"HOWARD"

Howard came to us from the Westall School, where he has gained a host of friends by his winning qualities. As a student he has never exerted himself, but he possesses ability to do good work. Automobiling seems to be his hobby. Andover is to be honored by his entrance in September.

"I go my way onward."

Marion Frances Lealy

The Westall School sent Marion to brighten and cheer our classrooms. This dainty little Miss is one of the most popular girls in our class, both among the boys and girls. Marion is an excellent dancer, and attends all the drills, where she is the center of attraction. We consider "Marymount" lucky in having her with them next year.

"Petite in size, big in mind, A dearer girl is hard to find."

M. Arthur Teary

"ART"

Our eyes were immediately turned upon "Art" with his first appearance at Durfee from the St. Mary's School, where he left a host of friends behind him. He immediately formed new friendships, however. "Art" is our assistant advertising manager and has been accomplishing his work in this line in the same whole-hearted manner in which he accomplishes all of his work. His hobby is sports, for he is a good all around athlete. Next year he is to attend, unless he changes his present plans, Tuft's Dental College. In years to come we expect to hear of him as Fall River's leading dentist. Good luck, "Art."

"Good nature is one of the richest gifts."

Minnie I. Leopold

"LEO!" "MIN" "DIMPLES"

Dogs! dogs! Right this way for your hot dogs. Yes, you're right, that's "Min" Leopold, a graduate of the N. B. Borden. Besides teing a seller of hot dogs, Minnie is a very jovial and carefree girl. While following the Normal Course Minnie has used her hobbies, which are basketball and dancing, to good advantage and has danced her way into popularity. "Leo" expects to enter Boston University in the fall and we wish her the best of luck, both while at B. U. and during the rest of her life.

"I'd sooner have a fool to make me merry, Than experience to make me sad."

Francis Fishel Levin

It was from the Davenport Grammar School that the affable "Fishie" was sent to Durfee, wreathed in smiles as usual. We were just about to say that he was carefree, but upon second thought we have come to the conclusion that he is not entirely devoid of responsibility. For we'll say, and he'll say, too, we guess, that he has one mighty conscious or conscientious care, whichever way you choose to look at it. He has not permitted us to announce his hobby, but we may state with a fair degree of accuracy that it may be automobiling or dancing or (?). He has decided to enter the business world after graduating from Durfee. You can succeed, Fishie. Keep a steady pace and you will win laurels.

"Quiet, steady, yet ever ready."

Charles Young Lewin

``CHICK''

"Get out of the way, make room for Chick." Of course this young giant must have room. He selected Tech to pursue a technical course, but fate sent him with the rest of the Tech A division to finish his studies at Durfee. He is a master mechanic, when it comes to his studies in machine shop and forge room. Machinery is not the only thing that has an attraction to Chick. He is a state guardsman who has been on duty during the influenza epidemic of 1918 and the famous Boston Police Strike of 1919. He has served his state during trying periods. Chick is going to Wentworth next fall to take a course in electrical engineering.

"Strength is the master of problems."

Viola Margaret Etta Lewis

"TI"

"'Vi'' is one of our bright Commercial students, who is clever with her fingers both at the typewriter and at the piano. In fact "'Vi's" hobby is playing the piano, and those who have heard her will vouch that she is of the best. When "Vi'" goes to Boston to the New England Conservatory of Music we expect to hear of her teaching the instructors there something about the piano.

"May she never change, except in name."

Stuart Littlefield

"TOOT" "TOOTIE" "STEW" "LITTLE"

"Tootie" is the life of the class and the N. B. Borden is to be congratulated on sending us such a good specimen of their ambitions. He ranks well in his studies, but would surely receive an A plus in mixing his coffee sodas. "Tootie" is undecided about next year, but we think it will be some Agricultural School, which will be honored by his presence.

"The life of the party."

Sparties nastring

Marion H. Loftus

Ah! Here's Marion. We're glad she is here, for she is just the girl to brighten up things and drive away dullness and monotony. Now, you know just what kind of a disposition she has. Marion came to us from the Samuel Watson School where she was just as full of life as she now is. Swimming is her hobby. After enjoying it this summer, she is going to study business at Boston University. Marion was one of the members of the Secretarial Class.

"Smile and show your dimple."

Helen Al. Logan

"CHIC"

Now comes "Chie" whose smiling disposition and winsome ways won her a host of friends and admirers. Popularity, sociability, cheerfulness, and affability . . . such are the qualities of "Chie." As a dancer she shines, and it is no surprise to see her receive invitations to numerous social functions. "Chie" is one of those persons who inevitably calls for a second glance. This attractiveness accounts for her numerous acquaintances here, and in the future in Columbia University.

"In actions faithful, and in honor dear Who broke no promise, and who lost no cheer."

James Lord

``JIMMIE",

"Jimmie" after graduating from the Highland School decided that Durfee was good enough for him. He joined the Cadets and achieved the position of corporal bugler in Sherman's bugle band. "Jimmie" has worked hard during his stay at Durfee and he entertains hopes of entering the Naval Academy at Annapolis.

"A man is as good as his word."

Eleanor M. Lown

Walking is her hobby. In fact there is hardly a limit to the number of miles she can hike if she has favorable companions. There is, for her, added interest in climbing hills and crossing brooks since she is acquainted with practically all the typical local wild flowers. About the first of April, even though snow may still linger, Eleanor knows where to find "packs" of arbutus, with which she decorates her classmates. "Lowney" is a graduate of the Samuel Watson School.

"Variety is the spice of life."

Florence R. Lynch

"FLOSSIE"

Prominent but not conspicuous; reserved but yet sociable; such is "Flossie." She is a prominent and honored member of the class of '20. Florence hied herself toward Durfee's granite walls four years ago. Here, she has become one of the most popular girls in the Normal Course. Florence claims reading and dancing as her pet hobbies. Next year will find Florence at some Domestic Art School.

"Studious, wise, and fair is she."

Katherine Agnes Lysaght

"KATY"

It sounds like a happy name, doesn't it? Well, it certainly is, and it takes "Kitty" to act the part. As she is light-hearted, so is she light-footed, for she likes to dance. Way back in '16 she graduated from the N. B. Borden Grammar School. Bridgewater is the place which will claim this active young Miss next fall.

"The good effects of true sensibility admit of no dispute."

George M. MacDuff

"MAC"

"Mae" is such a popular member of the class that we cannot understand how the McDonough School came to relinquish him. He is active in the Boy Band, in which he plays the cornet. In school he is the official cheer-leader, and so far as presence at the games is concerned, his mark is perfect. He is also Editor of the Record Book. After stocking up with Trig and "Solid" George will attend some technical school.

"Hath put a spirit of youth into everything."

Claxy Flix Bel natures

Elizabeth MacIntyre

"BETTY" "DICK" "SHORTIE"

Lo! the door opens and in walks "Betty." What would we have done for our senior class secretary and our most popular young lady if the Borden School had not presented her with a diploma four years ago? There is seldom a dance at which Betty does not trip the "light fantastic" and the position of wall flower is a joy unknown to her. Miss Gibb's School for Secretarial Training will be her next abode and we have no doubt but that the halls of fame will re-echo with the sound of her name even as the lunch room at Durfee.

"Happiness is the natural flower of duty."

tapel.

Abis B. Manchester

" A"

"A" has undoubtedly been enjoying her four years at Durfee. Her breezy manner has found many acquaintances for her and she is well liked by all who know her. After securing the coveted sheepskin she will enter the Wheelock Kindergarten School where we are sure she will be as well received as she was at Durfee.

"For she is just the quiet kind Whose natures never vary."

John J. Manion

John is a graduate of the Davis Grammar School. Although he seems too young to be a senior, he only furnishes another example of deceitful appearance. Nothing else about him is deceitful, though. In spite of his size, football is one of his favorite sports; tennis is the other. He expects to enter Holy Cross next year.

"Small sands the mountain make."

Loretta A. Marcoux

"BLONDE"

"Blonde" is a product of the St. Matthew's School, and is liked by each and every one of her classmates. She is one of the "take me as you please" girls, which accounts for her jolly and pleasing disposition behind a placid expression. "Blonde" is by no means the silent member of the Commercial class, and she is always ready to laugh at the right joke. Skating is her favorite pastime, and one would not doubt it if they could see her gliding over the smooth ice. When "Blonde" graduates she expects to be somebody's stenographer.

Jessie Brown Marnock

"JESS"

Jessie Brown Marnoch, our bonnie Scottish companion, is one of the brightest girls in the Commercial IV Class. Sweet-tempered, and always willing to "Help the other fellow," Jess has won our deepest admiration. We can imagine with what reluctance the teachers of the William S. Greene School must have given Jessie to us. Jessie's hobby is reading, and she is very ambitious. Her schoolmates and friends would not be surprised if they should hear even of Jessie's being appointed private secretary to the President!

"But there is ane aboon thi lave, Has wit, and sense, an' a' that."

Edward D. Martin

The Westall School is responsible for Edward's arrival into our midst. Through his genial disposition and personality, he made many friends,—and kept them. He permits us to announce that his hobby is swimming. We must not forget that he is well versed in the art of oratory; he has shown that both in and out of the English class. But we guess that New Hampshire College, which he intends to enter in the future, will be fully capable of taking care of him in that respect. We send him to the White Mountain State with wishes for the best of luck.

"I am no orator as Brutus is, But, as you all know me a plain blunt man."

Grace Louise AcCarty

"MAC"

"Mac" made a wise move when she came to Durfee, and she knows it. Although never neglecting her studies she is full of life and certainly enjoys a good dance with the right partner. Grace hasn't yet decided just what her furture will be, but we wish her success in whatever she undertakes

"Our own is happiness, 'tis yours, 'tis mine."

S.J. Clases Baley

Milliam J. McCaulley

"BILL" "MAC"

"Mac" landed into Durfee with a hop, skip and jump, that threw all of us into a state of amazement. Notwith-standing this, however, he immediately formed hosts of new friends by his good-natured, happy-go-lucky ways. His first two years he devoted all his attention to his scholastic work and as a result he gathered many high marks. In his last year he became a candidate for the basketball quintet and made an envious record for himself. Next year "Mac" says that he will try his luck at Bryant & Stratton's School of Business at Boston. Good luck, "Mac."

"All nature wears a universal grin."

Mary Cleopas McCloskey

"MOLLIE" "MOL" "MAC"

St. Mary's School prepared "Mol" for Durfee, where she has revealed her merry disposition and won many friends on account of her jovial nature. Dancing and swimming are her hobbies and we can vouch that she is an expert in both of them. She intends to enter Bridgewater Normal next fall. May we be fortunate enough to retain in memory this dear classmate of ours.

"It's the songs ye sing, and the smiles ye wear That's makin' the sunshine everywhere."

Paul V. McDonough

"PEP", "MAC"

"Pep," hailing from the N. B. Borden School, showed his discretion by alighting at Durfee. He immediately made a host of new friends, and soon become one of the most popular members of his class. "Mae" is an excellent athlete, and made a good name for himself as a member of the football and basketball squads. The latter game is his hobby, being a player of no small ability. "Pep" has made a favorable record for himself in his adaptation to his studies, but English seems to have a magnetic influence for him. As a token of our gratitude for the many things he has accomplished, he was awarded the office of associateditor of the Record Book. Next year, "Mae" will probably be one of the best-liked freshmen at Holy Cross.

"Few things are impossible to diligence and skill."

Joseph G. Alc Gee

``JOE'', ``MAC''

When "Joe" first came here from the Slade School he began at once to make a collection of the most singular nature. Some of our number collect stamps, some coins, and some, notoriety, but "Joe" collected "A's." He kept up his high record even in such subjects as solid geometry and Greek, studying so much that he had little time to devote to his private sport of swimming. After leaving Durfee he will become a freshman at Georgetown University.

"Above all Greek, above all Roman fame,"

Helena AlcGrath

"HUM"

"Hum" is one of our favorite joy makers. If there's any fun going on you're sure to find "Hum" around somewhere. Helen claims athletics as her hobby. She sure does support all Durfee's various teams in rooting for them. Next year "Hum" expects to enter Sargent's School and the Freshman class will certainly be honored. All your Durfee friends envy Sargent's i'reshies, "Hum."

"Smile and the world smiles with you, Kick and you kick alone."

Beatrice C. AlcGuire

"BEE"

"Bee" bounced in upon us from the William S. Greene one September day, and with her came her sunny disposition and generous nature. She has grinned her way through four school years which have been filled with hard work for the rest of us. Nothing bothers "Bee;" her motto is "I should worry." If we are blue we go find "Bee" for her jokes are bound to cheer us up. Her hobby is dancing, a hobby that suits "Bee" to perfection. She intends to go into the hair-dressing profession upon graduating. She is already high up in this art and we know she will succeed.

"Always ready to grin,"

Eberett E. Mc Millan

``EV", ``MAC",

"Mac" is a graduate of St. Mary's Parochial School, who came to Durfee to imbibe the College Course. He claims football and general athletics as his hobbies. "Ev" is not going to continue at school next year, but is going to work with his uncle in the trucking business, of which we hope soon to see him manager.

Robert Ernest Ac Millan

"MAC" "BOB"

Ask not, patient reader, the cause of all this racket. 'Tis but a crowd uttering cries of amusement at some new stunt of Bob's. Although Bob claims football as his hobby he revels in solving difficult problems such as discovering a unique collar or tie, or better still discovering how little he can learn and still get by. His intentions are to enter Holy Cross next year, but beware, Bob, a certain road is paved with good intentions.

"Farming is his specialty, Dancing his delicacy."

Anna U. McNally

After graduating from the Davis Grammar School, Anna came to Durfee to tackle the Normal Course. Doing her work with a bright and cheery attitude, Anna has completed four happy years. Dancing and skating are Anna's hobbies and everybody will agree that she does them to perfection. Bridgewater will be graced by sunny Anna next year. Good luck to you, Anna!

"Happy as the day is long."

Joseph F. Medeiros

"JOE" "CAPTAIN"

Readers, pause! To the left we see Captain Medeiros, or better known as "Joe." After graduating from the John J. McDonough Grammar School, "Joe" then decided to come to Durfee, where he has been for four years, a very popular member of our class. "Joe" is a firm believer in dancing and can you imagine a dance without him? He is also captain of Company B, an honor that he has well earned by his fine work in the Cadets. "Joe" intends to enter Dartmouth, to take a course in medicine and judging from his excellent record at Durfee, we expect to see a professional doctor in but a few years. Good luck, "Joe."

"On with the Dance."

Florence Theresa Miller

"LITTLE BIT"

When "Little Bit" wended her way from the Slade Grammar School to Durfee we little knew that we were to receive such an optimistic girl as she. She admits that dancing is her favorite indoor sport but we have faint suspicions of her outdoor sports. In the fall she intends to enter Boston University, at which place she will have the best wishes of her Durfee classmates.

Gertrude H. Aliller

Gertrude came to us from the N. B. Borden and has been a great help during the past four years. She is very quiet and somehow we can't imagine her with a nickname. Gertrude is one of our smartest girls especially in English. Her hobby is reading and that accounts for the great number of books with which she is acquainted. She has not decided what she will do upon leaving us but we know whatever it will be she will do it well.

"So quiet and so studious,"

Gladys Louise Mills

"BUBBLES"

Gladys is one of the most popular girls in our class. She possesses a charming disposition which, with other qualities, has made her one of our favorite classmates. She came to Durfee from the Slade School, where she received the foundation which has made her such an apt pupil at High School. She is especially fond of "A's" and seems to have little trouble in getting them. Her hobby is unquestionably skating, in which sport she is a decided success. Next year she will attend the Bridgewater Normal School in preparation for her life work as a teacher.

"Wisdom does not always speak in Greek and Latin."

James Norman Milne

"JIM"" "JIMMY"

"Jim" is a quiet fellow who broke into our company after completing a course of study at the N. B. Borden Grammar School. He doesn't say much but he certainly can dance when the music is snappy. "Jimmy" has gained quite a reputation as one of the High School reporters. His destination is Brown University, where along with many of his classmates, his success is certain.

"Silence like virtue, is its own reward."

Cora Mines

"SUNSHINE"

Sunshine has she been, sunshine will she ever be! This versatile young Miss stands high in the hearts of our class. Whenever we are lost among the waves of difficulty and trouble, her wholesome advice and friendly sympathy remind us of the bright things of life. Her genial disposition and candid ways have acquired for her a host of life-long friends. "Sunshine" takes great interest in all kinds of sports, but no one can compete with her in the art of eating candy. She has gained an enviable record of scholarship during her brief stay, so that we may all rest assured that she will uphold the standards of her class, by exhibiting her abilities to her future classmates and instructors at the University of Michigan, which she will enter next year. Accept our sincere wishes for a wonderful future, "Sunshine."

"Your worth is dear in our regard,"

W

DURFEE RECORD

Charles Kenneth Moore

"DINTY"

"Dinty" is a graduate of the Lincoln Grammar School. He is a quiet chap, who thinks a lot more than he says, although he is a good sport and is very humorous when he cares to speak. Mathematics is his favorite study and his chief delight is to solve for X. Dinty is a former Techite, who now enjoys the Durfee atmosphere, but will probably enter the Wentworth Institute later.

"Silence is the spotlight of life."

Anna Murphy

"ANN"

Anna came from the Davenport School to Durfee, and since then has made many friends. For a delightful, charming, entertaining and sportive girl, "Ann" takes the prize. We admit that Anna is one of the most attractive girls in the Senior class and is fond of dancing. At the Cadet drills, she is always found surrounded by a small army of boys asking for a dance, and we can readily venture to say that her hobby is dancing.

"Happy am I; from care I'm free; Why aren't they all contented like me?"

Hilda Mary Murphy

We all know and have noticed this fair girl with the peach-bloom cheeks, because of her quiet, dove-like disposition, and we all like her the more for it. She has not informed us, as yet, why she is so quiet and even-tempered, but we wager it is because she is a petite optimist, always turning clouds inside out. "Da" comes from the Susan H. Wixon School, where she received the first steps in the three R's. "Da" is some dancer, for when she gets started she hardly knows how to stop. Maybe she will, though, when she graduates from Bridgewater and is ready to teach.

"And on that cheek, and o'er that brow, Come smiles that win, and tints that glow, But tell of days in goodness spent."

Malter Leo Murphy

"WALT" "MURPH"

"Walt" is one of the most popular boys of our class. He came to us from the William S. Greene School and has surely exerted himself in our behalf. His hobby seems to be athletics, and we sure did see him shine as captain of our football team. He has also a prominent name in the basketball world. We hate to have him leave us, but "Walt" intends to enter the Georgetown University to continue his education. Here's luck, "Walt", old boy, wherever you may go.

"Hang sorrow, let's be merry."

Mildred Maclaren Murray

"MAC"

Mildred, who is a graduate of the Henry Lord School, is our smartest girl, though she indignantly denies that she is a grind. She gives as her hobbies swimming, dancing, and hiking, but to these we may safely add acting. Anyone who has seen Mildred behind the footlights will readily admit that we have a second Julia Marlowe in our midst. "Mae" has been selected by her classmates as Class Historian, an office which she will doubtless fill so well that her fame will reach to her future school, Pembroke.

"All the world's a stage,
And all the men and women merely players."

Milda Eleanor Angles

"HIL"

Hilda, the quietest girl in the class, is the product of the N. B. Borden School. Although, since she has been in Durfee, we have not heard much noise from Hilda, yet her intimate friends know that she is very fond of a joke, and can sometimes make considerable noise for one her size. She studies earnestly and conscientiously and often proves very valuable to a few who accidentally (?) forget to prepare their algebra lesson. We wish Hilda the best of luck in her lourse at Bridgewater Normal.

"A quiet demeanor bespeaks a great mentality."

Lloyd F. Naden

Lloyd graduated from the William S. Greene Grammar School and came to Durfee to prepare for the Massachusetts Nautical School. His work during his stay here was so good that he won an appointment before graduation. As a member of the class he has been active and well-liked by all.

Cecilia Frances Newton

"CEIL" "CELIA" "SIL"

"Celia" is a graduate of St. Louis' School. Here she is known as the only girl who has succeeded in finishing the Greek course. Her hobby is athletics, but walking deserves especial mention. After her graduation, Cecilia will go to Radeliffe to continue the work which she has begun here.

"Walk by moon or glittering starlight."

Anna J. Nicholson

"ANNIE"

Annie comes from the Samuel Watson School and is another one in the class liked by all. Always smiling and happy, with an amusing stock of original remarks, she is a great addition to any gathering, and keeps everyone in gales of laughter. Annie is small, but "There is good stuff in small packages."

"Good humor is the sunshine of the soul."

Edward J. D'Brien

"EDDIE"

Gaze upon this athletic form and as you look recall to mind how "Eddie" tore through the lines of our opponents in football and basketball. "Eddie" graduated from the J. J. McDonough School and has cast honor on the place of his first education by becoming the vice-president of our class. Although he is quiet and very unassuming he sure can push his way through things when he wants to. In the future we expect to hear of him charging through some technical school.

"Drive on, proud warrior."

Mary R. O'Connor

Step aside and make room for Mary, who condescended to join us, four years ago, from the Dominican Academy. This quiet, dainty little Miss is agreeably considered by all who meet her. English and chemistry absorb most of her interest when there is no dancing. We all wish her luck in her new field of learning next year.

"I aim not to be wondrous wise, Only to be jolly in all folks' eyes."

Gertrude May Partington

"GERT"

Good natured and jolly, Gertrude has made many friends at Durfee. Graduating from the Highland School "Gert" entered the Normal Course where she has creditably passed four years. She says her hobbies are tennis, swimming and skating "according to the season." Next year will pursue studies which will fit her for a nurse.

"True to your word, your work, and your friend."

Louis Thomas Pereira

"LOUIE"

"Louie" comes to us from the Borden School and has been to Tech for two years. While there he was very prominent in machine shop drawing, forging, being very apt in all mechanical arts. When Louie came to Durfee he soon adapted himself to the new conditions. He became prominent in athletics, being the pitcher who caused the downfall of our teachers in "the faculty game" of last year. He expects this year to even better his record as a pitcher. Louie's hobby is motoring, being one of the most skilful motor cyclist of the North End. Louie expects to take up medicine at Tufts next year and sure promises to make record speed in getting to "cases."

"Show me the speedway."

Juliette Louise Plante

"JULIE"

Behold our French Julie, but woe is me, her Romeo is not to be found! She loves them all and is a willing friend to all the girls and fellows who need sisterly advice. Julie, we are sure, must have been adored at the Dominican Academy where she spent her first years of study, because even now all who meet her love her because of her winning smile and pensive eyes. Her hobby is swimming. However, she spends a goodly time sketching. In fact, after this year you will find her at the R. I. Art School learning fashion designing.

"Sweet mercy is nobility's true badge."

Bertrand D. Quinn

"BERT"

This is "Bert," another member of the famous Quinn family, who like his brothers and sisters, when they were in this High School, has become a popular figure in his class. "Bert" comes from St. Mary's School, and he confesses to joy-riding as a hobby with athletics as a side line. Bertie not only has the personality but also the talent and that little spark called Ambition. Hence next year this studious young man is headed for Annapolis where we are sure success awaits him.

"A sailor's life for me."

Marion Dorothy Quinn

"D" "DOT"

"Dot," one of the best-liked girls of the class, gained her first knowledge in St. Mary's School. Then she charmed Durfee with her presence. Ever ready for a joke, and with a smile for every one, Dot has made many friends. Swimming and tennis, we are told, are Dot's hobbies, and we know she is an expert in both of them. Sargent's will gain a capable student next year.

"An ounce of mirth is worth a pound of sorrow."

Marie Zita Regan

"KID"

We are greatly indebted to the Borden Grammar School for giving us Marie or "Kid," as she is often called. Marie does not over-burden her brain with study, and although she always sees the merry side of affairs, at times she is serious, and then she shows us that she is a very good student. Marie's hobby is dancing, and we wouldn't need to ask her either, for she is always present at all the social functions of the school. Hyannis will gain a very apt pupil in Marie, next year.

"Be merry, if you are wise."

"JACK"

John's outstanding characteristic is quietness. In school he prefers to steadily concentrate on his studies rather than to neglect them for some of the frivolous things in school life which many of us are weak enough to follow. We take the liberty to characterize John as a steady, hard worker and do not hesitate to give him due credit. He came to Durfee from the old Davenport Grammar School, whence came so many others of the famous. His hobbies are, according to the seasons, skating in winter and swimming in summer. Next year he intends to be a student at the Massachusetts Agricultural College at Amherst. It is needless to state that the class wishes him well in whatever he undertakes.

"A moral, sensible, and well-bred man."

Marjorie G. Reilly

"MARJIE" "MARG"

"Marjie" has been by no means a silent member of the class since she bade the Lincoln School farewell and joined our Commercial class. Although she has not inconvenienced herself in the way of studying, we find her surpassingly wise in many matters. There is seldom a dance which does not boast of "Marjie's" presence, and the position of wall-flower is a joy unknown to her. "Marg' may be seen in the ticket office of any local theatre answering the phone, and we must say that she is a favorite among all.

"Some indulge in talking-others add walking."

Emil Arthur Renaud

"EM"

Upon leaving the N. B. Borden School, "Em" first astonished his classmates by his ability in the English department, under the instructions of Mr. Jackson. No doubt many of his classmates will remember the "Criterion," a class magazine which he produced once a month during his freshman year, with the help of other members of the class. His very original and amusing "Vernon Tuttle" stories were also the talk of his fellow pupils, who have missed them greatly these last three years. We cannot doubt that Emile will make his mark in the journalistic field, should he turn his endeavors in that direction, after he has left our halls.

"And choose an author as you choose a friend."

Ebelyn Maud Riley

"EVY"

Here is "Evy," a fine specimen of what the Susan H. Wixon School can produce, and Durfee is proud to claim her as its own. She is one of the jolly members of our class and is very well liked by all. She is also a steady worker who lets nothing slip by until it is understood and finished. Dancing, Evy claims as her hobby, and we can safely say she is an expert. After attending Bridgewater we are sure that "Evy" will make an ideal school marm.

"She wears wisdom lightly."

Celia Sybil Robinobitz

"SYB" "DAISY"

Celia Sybil Robinovitz made her debut in Durfee after her graduation from the John J. McDonough School. This black-eyed damsel has numerous ideas, the most apparent of which is the importance of having one enjoyable stretch of good times. "Syb' loves to dance and she's just infatuated with canoeing on a balmy summer's day. But since this "black-eyed Susan' is none too quiet in a canoe, perhaps she may overturn it some day, thus losing her infatuation. Celia, of course, has ambitions, too, like the rest of us. She is anticipating a trip to New York in the early future, where she expects to become a private secretary.

"Trip the light fantastic."

Estelle Robinson

``STEL"'

Here we have Estelle whose smiling disposition and winsome ways have won her a host of friends and admirers. Although dancing is her hobby, we have noticed that the "Great White Way" and the massive theatres of our city form a great attraction for her. Although as yet she has chosen no particular school in which to further her education, since entrance examinations hold no fear for her we have only continued success to wish her.

"And still their wonder grew
That one small head could carry all see knew."

Henry L. Rock

"HEN"

Who said "a happy guy?" That's him all over. Well, happiness goes a long way, in fact it is the thing that makes living worth while. Henry brought his genial disposition from the Dighton Grammar School. His hobby is dancing. If we were to advise him as to his future occupation, we'd say, "Do some hing that will make the name of Durfee famous." Whether he turns out to be a banker or a movie star or a governor of a state, his life is bound to be a success.

"Blushes are the color of virtue."

Maberley Lewis Root

The Fowler Grammar School gave us this quiet and studious classmate who is known well by all of us after four years of pleasant association at the school upon the hill. His brilliance in his studies amazed all of us and we are willing to vouch that next year when he attends Tufts Liberal Arts School, that he will be found setting the pace in his studies for his future classmates. He says that his hobby is band and orchestra music and after hearing him play various instruments in our school orchestra, for four years, we may easily believe him. Durfee's loss this year will be Tufts' gain.

"Knowledge is power."

Hannah Sachs

"ANN" "SAXIE"

Hannah Sachs, another of our bright Commercial students, was graduated from the Nathaniel B. Borden School, came to Durfee, and proved to us that studying doesn't harm a person. "Ann," quiet of demeanor, and round of eye, surprised us all by showing what a really energetic person she is. Ann's never late for an appointment, and she's never idle, although she does love to read, and nibble at candy. We all have our luxurious moments, though. "Saxie," as she is lovingly called by her intimate friends, is very chummy with the piano, too, and her time is pretty well taken up with all she does. Her ambition is to become a private secretary, and very soon, she may enter Simmons. Lucky Simmons!

"Her fingers flitted o'er the keys."

Bella Florence Sacknoff

"DIMPLES"

"They are never alone, who are accompanied."

Grace M. St. Amand

"PEGGY"

Zip! Here's the real live wire of the class! Behold, the Great and Honorable Gloom Dispeller of the Commercial Class. "Peggy," who came from the Davis School, is right there, when she is gliding over the ice. For a wide-awake girl, we turn to "Peggy," who is always proposing some novel idea to the world in general. No, our friend never keeps anything to herself, for a more generous and good hearted girl than she could not be found in the whole school. We all admit that "Peggy" is a delightful girl with a pleasing personality, and believes in the following motto:

"Laugh, and the world laughs with you."

David Shapiro

"DAVIE" "SHAP"

The John J. McDonough School produced an able scholar in "Dave." His favorite pastime seems to be arguing the fourth dimension with his friends and teachers. "Davie" says that his hobby is athletics and it is only necessary to see his robust form to know that he is right. He is now considering Columbia College, where he will prepare for law.

"I have bought golden opinions from all sorts of people."

Abbie L. Shay

"SHAY"

Abbie's fair hair and sunny smile form an irresistible combination. Her ready wit and congenial spirit are just a part of her, and they will both be missed when she leaves Durfee. "Shay" shines in athletics but dancing and driving cars are her specialties. Another thing which she is noted for is, that out of all the fascinating feminine portion of Durfee, she was chosen the prettiest girl. Abbie is undecided as to what she will do on leaving school, but whatever it is, she has the best wishes of the class for future success.

"Pretty to walk with
Witty to talk with
And fair to look upon."

Mark E. Shay, Ir.

Mark is one of the best liked and one of the most popular boys in the class. His first rise into popularity came from his achievements on the gridiron and during the rest of his High School career he proved one of the opposing team's most formidable opponents on the footba'l field. Mark came to us from the Fowler School and brought with him that winning personality which has made for him so many friends. A diligent worker and good scholar, he should meet with success in whatever he undertakes. He expects to enter Princeton in the fall and come out with a few degrees in scholarship and also in football.

"And the man worth while
Is the man that can smile
When everything else goes wrong."

Arthur I. Shea

"ART"

"Art" is a graduate of the Fowler Grammar School, who has worked with us during the last four years at Durfee. Dancing and swimming he claims as his hobbies, but winning prizes at Cadet Drills seems to be another. "Art" intends to go to Worcecter Polytech to complete his education.

Katherine Frances Shea

``KITTY",

The Daveuport Grammar School is responsible for sending into our midst, "Kitty," one of the best natured in her class and consequently most liked by all. Her hobby is reading, and this fondness may be held responsible for her wide knowledge. She was efficient and zealous as a member of the class, in all undertakings that were to be put through.

"The only way to have a friend, is to be one."

Vincent T. Shea

"BEN"

Following the steps of many of his classmates from the N. B. Borden Grammar School, "Ben" entered the glorious halls of Durfee. Although a quiet and unassuming young man, still his presence has always been found in the vicinity of fun. He is fond of all the popular sports, but seems to prefer motoring to anything else. "Ben" may often be seen on the Providence Road with his "Chinese Packard," making a surprising number of farmers on the soute start up and take notice. This promising youth has not as yet decided what his vocation in life shall be, but intends to enter some "prep" school to think matters over, where he has the best wishes of his class.

"Silence is golden,"

Maude E. Shirley

"TIBBS"

Her nickname, "Tibbs" implies that she is meek, mild and modest, three gentle attributes. However, when occasion requires, calmness transforms into any quality necessary to meet the situation. "Tibbs" is fond of basketball. Oh, yes, if she were playing on a team she could win against the strongest opponents. A long time ago, though only four years, she graduated from the Lincoln School. Now she is going to Wilberforce. Maude, when you come back from Ohio you'll be an "eddicated" person.

"Ambition spells success."

Lillian Shuttleworth

"LIL"

Apparently "Lil" appreciates nature and the wide out-of-doors with all the pleasures it affords, for her hobbies are swimming and canoeing. Since she is a real girl scout this must be true. When "Lil" was a little girl every morning she went with her auburn curls and smiles and occasionally a geography or spelling-book, to the Slade School. Some day she will teach little girls with auburn curls for she intends to enter Bridgewater. But we can't believe she would assume cross looks and slam books, as some teachers do.

"Ding-dong, 'ere she comes!"

Rose Nora Agnes Sisca

"RO" "SISCA ROSE"

"Ro" bounded in upon us one September day four years ago and we're mighty glad she did, because we can't imagine where the Latin class would be without her. She's short and chubby, but you ought to see her play baseball! Always ready to laugh and give you a helping hand. "Ro" intends to enter Pembroke in the fall, and we know she'll be the Latin star there. We'll miss you, Rose, but we know you'll show them what Durfee can do.

"She's happy as the day is long."

David Raymond Smith

"DAVE"

The Westall Grammar School reflected honor upon itself when it sent us "Dave," the handsomest fellow in the class. Skating, tennis and football are "Dave's" favorite sports and his record as a player has been an enviable one. He intends to go to some preparatory school when he leaves us. Good luck to you, "Dave," old top.

Milliam Albert Smithson

"SMICKEY"

"Smickey" is a product of the Samuel Watson Grammar School who came to Durfee to spend a joyful, hardworking four years with us. He has no hobby as far as we can find, but we are pretty sure that he likes so many enjoyments it was hard for him to pick any special one. When "Smickey" goes out into the world to seek his fortune we sincerely hope he will strike it lucky.

Maurice Snell

"SNELLY"

The Henry Lord School relinquished its hold on a very bright young man, when "Snelly" wended his way to Durfee. He is a popular member of our class, and is a great favorite among his classmates. "Snelly" appears to have been greatly inclined to military tactics. As a result of his perseverance in this line, he received the commission of second lieutenant and supply officer. Moreover, he has exhibited his talents at the cadet drills, as he has been awarded the Talbot medal. In his studies at school his rank of scholarship has been very high. His next school of knowledge will be Boston University, where he intends to study law. May success and happiness be yours, "Snelly."

"Few things are impossible to diligence and skill."

Rhoderick Rudolph Sorel

"DICK"

Dick came to this institution a product of the Slade School. His stay here has been characterized by his prominence in the school, where he is a leader among the pupils. Dancing and basketball are Dick's favorite pastimes, and each and every one knows how he excels in the former. We all expect to hear big things from him when he journeys to Boston next year to begin his college course at Boston University.

"A dance! A dance! My kingdom for a dance!"

``MAY'' ``MAB'' ``SOWT''

Hear that whistling coming down the corridor? Well, you may be sure that's "Mab." You know who I mean, don't you? The girl with the cute little side curls. Don't know her? Why, nonsense, she plays in the orchestra, also is art editor of our Record Book. In summer "Mab" just delights in gliding down the river in her canoe or swimming; however, in winter dancing claims a great deal of her attention. After "Mab" had "eaten" all the knowledge in the Davenport School she went to Tech and later when the two schools joined, came to Durfee to share her lot with the rest of us. After receiving her diploma "Sowt" intends to pursue her studies at the R. I. School of Design. She may rest assured that the good will and love of her fellow students will be with her fore'er and aye.

"A hand that follows intellect can achieve."

Daniel David Sullivan

"DANNY"

"Danny" came to us as a product of the Sacred Heart Parochial School, where he was quite well-versed in math. "Danny" says that his hobby is reading, but we all agree that he should be employed to teach math. to the faculty. Holy Cross College will open its portals to him in the fall and with our best wishes he goes to his future work.

"Some men are born great, others mathematicians."

Clax Bahy

George Francis Sulliban

``FAT'', ``SULLY'',

George was received in the halls of Durfee with welcome arms, in the fall of 1916, from the Sacred Heart Grammar School. Good-natured and happy-go-lucky, this youth immediately became a favorite of our class. "Sully" says that his hobby is swimming and it is rumored about that last winter he held the championship of Palm Beach at this sport. Although not a "grind" George more than did himself justice in his studies, especially at geometry in his second year, when he showed how easy it is to get a high mark in a test if "you only know how." George will gain his further education at Holy Cross next year and it is certain that he will keep up his good work and will form hosts of new friends at this college.

"Laugh and the world laughs with you."

John Joseph Sullivan

"SULLY"

The day that the William S. Greene School released its hold on this husky, well-built young man, was a very fortunate one for the class of 1920. Many are the times our hearts have been less jovial, to be brightened by the presence of "Sully." All the well-known sports occupy a great deal of this young man's time, and as for swimming—his reputation has early been established. His studies at school have proven him to be a scholar of great ability and eventually will be accredited for the discovery of unknown substances in chemistry—his shining mark. He will enter Andover this fall, where he will be taught further knowledge, and then he will proceed to Harvard. The class feels confident of his success.

"Best of company must part."

Leonard J. Sullivan

"SULLY"

"Sully's" chief characteristic is the eternal smile with which he greets everyone and everything. His reputation for cheerfulness preceded him from the Westall School, where he secured the rudiments of his education. Neither boisterous nor retiring, he adopts an affable manner of drawing from the stock of knowledge he has secured; from observation, and from books, for his hobby is reading. Having attended practically all social functions of his high school career, he has bettered himself not only in an educational way but in a practical way and we foresee in him a find for the General Electric in Lynn, which he expects to attend next year. He merits the good will of all and, so far in his career, he has it.

"Bashfulness is an ornament of youth."

Mary Dolores Sulliban

"MARY D"

Mary came to us from the Davenport Grammar School, and she has certainly gained quite a reputation at Durfee. On account of her jovial disposition and good nature, Mary has made a host of friends. We know also that she is one of the brightest girls in her class. "Mary D" claims swimming and hiking are her favorite pastimes. How about canoeing in the moonlight, Mary? We all congratulate Bridgewater upon its good fortune in receiving her next year.

"The price of wisdom is above rubies."

Mary Sulliban

"SULLY"

Mary, one of the best-liked and genial members of our class, entered this world on May 9, 1902. She gathered her first inklings of knowledge at the William S. Greene Grammar School and after a nine-year sojourn there she betook herself towards Durfee. Here she has spent four happy years. Mary's hobbies are dancing and swimming. With all our wishes we hope that she may succeed in Sargent's next year.

"Diligence is the mistress of success."

Mary Rose Sulliban

"MARY" "ROSE" "SULLY"

This pretty Miss, with the winning smile, is "Sully," the class giggler. Is it any wonder that one so optimistic as she is popular? She is a graduate of the Borden Grammar School. Much to our surprise she blushingly confessed that dancing was her hobby while all the time we were expecting her to say studying. We have not been able to find out what her prospects are for next year, but she knows that our best wishes go with her over the high-road of time.

"Good nature is one of the richest of gifts."

S. J. Class Liggler

John Joseph Sykes

"JOE"

"Joe," the prize fighter, is a graduate of the William J. Wiley Grammar School. He has taken the Commercial Course here and expects to study Business Administration at the Boston University next year. He claims dancing, swimming, and boxing as his hobbies and we will vouch for him in any of them.

John F. Taylor

"JACK"

"Jack," as he is familiarly known to his classmates, came here from the Highland School, bringing with him that buoyant disposition which is the secret of his popularity. At any school activity John is sure to be there, and whether it is a dance or a football game he is at his best. He says his hobby is swimming, but he seems to have a decided liking for the cadet drills. "Jack" expects to attend Georgetown University and his genial personality and winning way will make him a welcome addition to that institute.

"Hence, loathed melancholy."

Alice Rose Tester

"SHORTY" "LITTLE ALCIE"

Sh! Don't disturb the tranquility about this "Little Alice," who is one of the quiet members of the class. She doesn't say much, but when she starts in to speak, "You'd be surprised." "Shorty," sometimes called Rose, who believes that silence is a virtue, came to us, four years ago, from the Webster Grammar School, Cambridge, Mass. Yet, we must admit "Shorty" cannot be equalled in a certain respect. A slight glance is enough to convince anyone that our little friend surpasses all her classmates for diminutive stature.

"Small only in stature."

Florence May Tibbetts

"TIBI"

Florence is an alumna of the N. B. Borden Grammar School. She is very fond of singing, as she should be, for she possesses a very fine, rich contralto voice. Everyone who attended the Durfee Orchestra concert will remember her fine singing. When "Tibi" leaves Durfee, she will go to Mt. Holyoke to complete her education.

"Sweet is every sound, Sweeter thy voice."

Alice Looise Tripp

"LOU"

Hail to Alice, one of the most intelligent, most active and best-liked girls of the class. She graduated from the North Westport Grammar School, and continued her studies in the Normal Course at Durfee. She has created some consternation among her classmates through the use of her unusual vocabulary. Her hobby is walking, but . . . is it alone, Alice? She has made no definite plans for next year, but the love and test wishes of the class go with her.

"Of valor's minion carved."

Lester T. Hditsky

"LES" "LESSIE"

Lester T. may be way down in the alphabet, but not so in the estimation of his classmates. Before attending Durfee, "Les" attended the John J. McDonough Grammar School. His avocations are automobiling and swimming. "Lessie's" one "bug-a-boo" seems to be Latin, but inasmuch as he is not alone in this uncompromising situation, and has successfully withstood three years of it and is withstanding the fourth year, why kick? He intends to become a cadet at West Point, and if his intentions are realized, why, there can be no question as to the security of our lives and homes in the future. In any case, he has our best wishes.

"He has the makings of a good fellow."

Herbert Huyne VanBlarcom

``VAN",

Russell, Russell, and here we behold "Van." We are greatly indebted to the Highland Grammar School for this shining light. "Van" has fought his way into fame as one of the greatest men on our famous football team, although he is also greatly interested in baseball. Durfee will surely lament the loss of this athlete whose future position at Cornell is secure without doubt.

"A heart to resolve, a head to contrive, and a hand to execute."

Margaret Mary Panghan

"MARG"

Margaret, better known among her classmates as "Marg," one of the merrics' members of the Commercial Class, came to Durfee in 1916, after graduating from the St. Mary's School. In some mysterious way, all her own, "Marg!" is capable of leading a care free life here at Durfee, and sti'l succeeds in gracing her card with "A's!" and "B's!". "Marg!" declares that her favorite diversion is dancing, and one may see her gliding over Tech auditorium every recess. Our humorous classmate will take with her, the best of luck from all when she leaves us in June.

"Stenography is her specialty—dancing is her delicacy."

Edith R. Pioni

"ED"

Her nicknames are "E D" and "Ed" with a long e, if you please. She has three hobbies; when evenings are long and lonely, dancing is foremost; when the moon shines brightly and the ice is thick and smooth, this gives its place to skating; when summer zephyrs sigh, "come along," Edith answers, "motoring for me." "Ed" spent eight years at the Davis School, studying the fundamentals of learning. When women vote and we travel on airplane routes—well, she may be a congresswoman or an aviatress.

"Discretion shows itself in all circumstances of action."

Henry Franklin Made

On his way from the Westall School to the Rhode Island State College, Henry has stopped at Durfee for four years to imbibe the Scientific Course. He is unequalled among the Fall River boys of his age as a clarinet player. He has played first clarinet in the High School orchestra during his four years. His special hobby is the study of electricity, in which we predict a great future for Henry.

"Music hath charms to soften the savage beast."

Holden Durfee Metherbee

"CICERO" "DUKE" "COUNT"

In 1918 New Bedford High lost a brilliant scholar in the person of Holden, whose parents decided to move to the city of spindles. He joined us in our junior year, and immediately astounded us by his knowledge of history, literature and other topics in general. He obtained his first inkling of knowledge from the Varnum Grammar School of Lowell. He states that his hobby is stamp collecting and as Holden never tackles anything in a half-hearted fashion, it is a safe bet that he has some collection. Either Williams College or Dartmouth will be the lucky college to receive Holden next year.

"Tis an ill wind that blows nobody good."

Samuel B. Mexler

``SAMMY'', ``WEX''

After gleaning all the knowledge afforded by the Susan Wixon School, "Sammy's" way was fortunately paved to the portals of Durfee. His good-natured and easy-going ways have acquired for him numerous friends at Durfee. His present secretarial course holds a great deal of attraction for him and he has shown himself to be a scholar of high merits. The popular sports attract his attention somewhat, still he may always be seen at the various cadet drills and socials and dance, that seems to be his second nature. Moreover, success in business is his goal, as Boston University will have the good fortune of instructing him in further knowledge of business. Accept our sincere wishes for a successful business career, "Sammy".

"He who wills is the man who can."

Edward Jackson Mhalen

"EDDIE"

When "Eddie" left the Fowler School to come to Durfee, he enrolled as a member of the College Division. After his first year he changed his course, and spent a year in Tech. However, the consolidation of the two schools brought him to Durfee again. As one of our musicians he has exhibited his proficiency on two instruments, for during his first year he played violin in the school orchestra, while this year he wields a trombone. He intends to enter Wentworth Institute next fall.

"How hath the mighty fallen."

Estelle Angela Mhite

"STELLA" "STELLE"

"Stella" is a valuable product of the N. B. Borden School. She entered Durfee in the fall of 1916 and has proved to be a very good student, indeed. "Stella" is original in her work, and quietly (?) goes her way, depending on no one. She claims dancing is her hobby, but how about walking in the moonlight, "Stella?" To Bridgewater Normal the heartiest wishes of her friends for her happiness will acompany her.

"Good humor is the sunshine of the soul."

Clarence Edmund Mhiteman

"WHITEY"

"Whitey" is a graduate of the Slade School. He desired to study the principles of mechanical arts, so he directed his path to Tech. He was there two years learning to handle the different complicated machines. His next move was Durfee and he has been enjoying the atmosphere here tremendously. "Whitey" is interested in athletics, although he has had no time to win a "D" on the school teams. He is also a corporal in the Cadets. "Whitey" has spent a good deal of his time doing duty with the State Guard. He is a veteran guardsman, having been on duty during the influenza epidemic of 1918, and the Boston Police Strike of 1919. "Whitey" is going to Wentworth in September to study Electrical Engineering.

Charles Milton Wilcox

"MILT"

Halt! who goes there? Why, that's "Milt," the young mathematician, who graduated from the Susan H. Wixon Grammar School. Because of his faithful work and pleasant disposition he has won the respect of all his classmates. When he enters Bowdoin next year we know that he will make a name for himself.

"Small in stature, but with big ideas."

Charles R. Yoken

"CHARLIE"

"Charlig." hailing from the Davenport Grammar School, has the distinction of being one of the youngest pupils of our class. During his four years' stay with us at Durfee, he has established for himself a high record of scholarship. "Charlie" is a member of the Record Book Staff. "Charlie's" hobbies are dancing and the popular sports, for it is a well-known fact that he is an excellent baseball player and an all-round good athlete. Besides, he is one of the best-liked fellows in our class, and it is with much regret that his innumerable friends at Durfee are forced to leave his companionship. After graduating from Durfee. "Charlie" expects to attend Columbia University, where he has the many wishes of the class for a successful future.

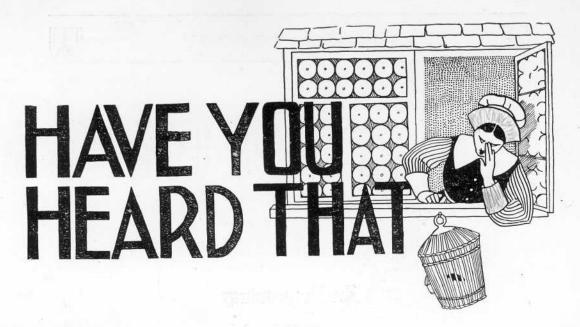

"Some men are born great, some achieve greatness, and some have greatness thrust upon them."

DURFEE FOOTBALL TEAM

The football team, under the captaincy of "Walt" Murphy, played a total of 10 games for the season, of which 3 were won, 3 were ties, and 4 resulted in defeats. The team was minus the services of the captain most of the season, as he received injuries in the Mansfield game

which kept him out until the Thanksgiving Day battle.

The two great disappointments of the season were the two defeats which our rivals, New Bedford, handed to us. Both games were lost on flukes, and although our warriors battled hard they lost the decision in both cases. Brockton High proved to be the hardest team that we met, and they certainly knew the game. Fairhaven was not as much as it was cracked up to be, but they blanked us once.

Mansfield High would have been good meat for Coach Foley's Freshman team. On looking back at the game, the score should have been

75 to 0.

"Eddie" O'Brien was the heavy scorer of the team at the fullback position. Spyros held his own at halfback, along with Harrington, another

good scorer. Van Blarcom run the team when available.

Bill Brennan played well at the pivot position, flanked by "Tootie" Littlefield and "Joe" Sykes in the guards. Mark Shay and "Louie" Hathaway banged away at the tackles with plenty of reserve force. Davis was also a good man in the backfield. Captain Murphy played end when in the game, while McMillan and Feitelberg subbed in the line.

The summary of the season:

Durfee 14, Hope 0.

Durfee 0, Providence Tech. 0.

Durfee 0, Brockton 18.

Durfee 39, Mansfield 0.

Durfee 6, Taunton 6.

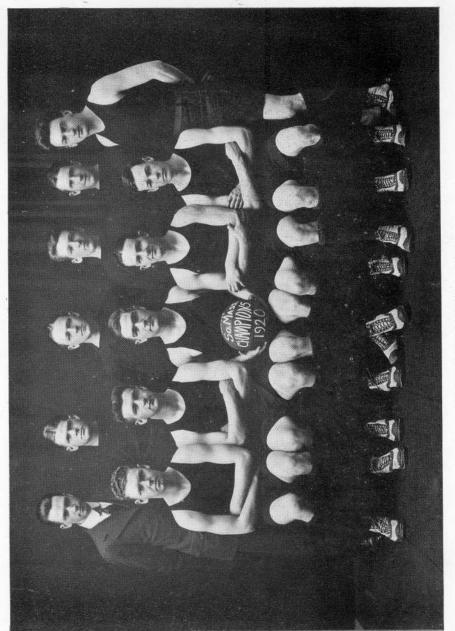

Durfee 13, Taunton 0.

Durfee 7, New Bedford 13.

Durfee 0, Fairhaven 13.

Durfee 0, Fairhaven 0.

Durfee 0, New Bedford 6.

DURFEE BASKETBALL TEAM

Baskethall

Our basketball team concluded a very successful season, inasmuch as this was the first time since 1917 that the basket tossing game was a recognized school sport.

The team opened the season at Woonsocket. On the 13th of January, after barely a week of practice, they handed the high school champs of Rhode Island a sound lacing to the tune of 36 to 24. New Bedford High was the next victim, but the game was the hardest fought victory that the team achieved. The final score was 19 to 15.

Coach Foley took his team to Weymouth by machine in the big snow storm, and again Durfee proved superior to the home team and took the game 37 to 27. Attleboro came to Fall River with a big reputation, but they even left that here when Captain Spyros and his crowd played the kind of basketball that makes champions.

The Stoughton, Fairhaven and Attleboro High teams fell before the onslaught of the Durfee boys' fast play, and there was a possibility that our team was to get the state championship. Then New Bedford administered the first reverse of the season to our team on Washington's Birthday, 41 to 36.

At Dorchester our team showed some of its mid-season pep, but after two five-minute overtime periods the Boston College High quintet were in the lead 27 to 24. In the following week the Boston team again defeated the locals, thereby eliminating them from the state championship race, 29 to 26.

By victories over Attleboro, New Bedford and Fairhaven the Durfee team secured a firm grip on the basketball title of Southern Massachusetts

Captain Spyros was the high scorer for the season, and he was closely followed by his running partner, "Walt" Murphy. "Windy" Davis held the pivot position, while the guards, Giblin, "Eddie" O'Brien and "Louie" Hathaway, held their opponents to low scores. The above are the letter men.

There was a wealth of material for the team, most of which will remain for next season. Summary:

Durfee 36, Woonsocket High 24.

Durfee 19, New Bedford High 15.

Durfee 48, Attleboro High 15.

Durfee 37, Weymouth High 27.

Durfee 46, Fairhaven High 11.

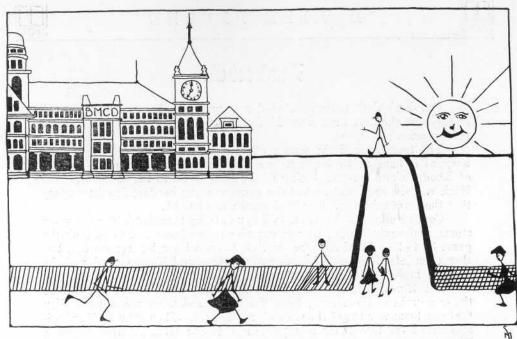

Durfee 35, Stoughton High 17.

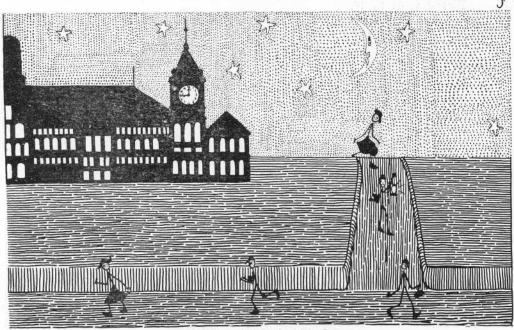

Durfee 14, Fairhaven High 14.

Durfee 42, Attleboro High 24. Durfee 36, New Bedford High 41.

Durfee 24, Boston College High 27.

Durfee 26, Boston College High 29.

OUR SCHOOL

We Wonder What Would Happen

- If somebody was able to get something besides indigestion at the lunch counter.
- If Waverley Root combed his hair.
- If the School Committee considered a Durfee petition.
- If Mr. Jackson lost his dignified air.
- If Carreiro kept quiet at a class meeting.
- If the stuff at the lunch counter was sold at less than 100 per cent. profit.
- If Latham forgot to press his suit.
- If ice cream cones were sold for five cents.
- If Wetherbee kept still for a whole period.
- If the no school bell rang for Durfee.
- If the frankforts were hot at the lunch counter.
- If Miss Winward said, "No one need return today".
- If George MacDuff winked at a girl.
- If someone found some vegetables in the vegetable soup.
- If the school installed a few cold water bubblers in Durfee.
- If Mr. Swick lost his lecture notes.
- If all the students patronized school events.
- If there were no exams.
- If some material was actually handed in to the Record Book.
- If Louis Hathaway forgot to mention his name in the columns of the "News".
- If the School Committee shortened the session.
- If anybody ever read the notices on the bulletin board,

Class Gde

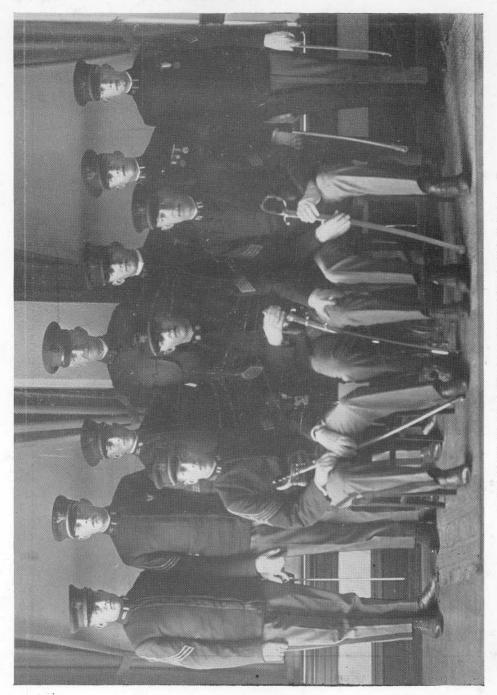

When the westering sun gilds the clouds with its rays, And the ploughman returns from his labor, And the village folk listen to tales of the days, When they meet at the home of a neighbor; When we've toiled through the day o'er the pathway of Work, And have struggled straight on with our load, We will put down our packs, 'midst the shadows that lurk, 'Round the fork at the end of the road.

But the sun will arise in the east on the morrow,
And bring to the world a new day,
And the farmer return to the plough and the furrow,
And each villager go on his way;
Then we'll gaze at the signs and we'll pick out our fork,
And we'll say, as we pick up our load,
"We will keep on our way 'long the pathway of Work,
For we're not at the end of the road."

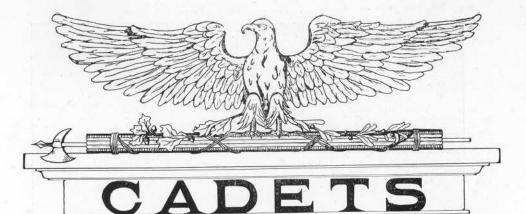

So our time for preparing has run out its course, Through these halls we have toiled all the day, But a new dawn is come, and the path stretches out, Though morn's light does not yet show the way. For the pathway ahead is concealed in the dark, Yet we'll enter, to bear our new load, And our feet will, perhaps, in the sand leave their mark, Of Success, at the end of the road.

-Waverley L. Root.

COMMISSIONED OFFICERS CADET BATTALION 1919-1920

This year is credited as being the most successful since the origin of the Cadet organization, both financially and in point of numbers. The

the Cadet organization, both financially and in point of numbers. The following officers were chosen as a result of the severe written and oral examinations given in October:

Major, Frank A. Fyans Adjutant, George F. Carreiro Supply Officer, Maurice Snell

COMPANY A

Captain, LOYAL W. GRANT First Lieutenant, George H. Emerson, Jr. Second Lieutenant, Raymond G. Hampson

COMPANY B

Captain, Joseph Medeiros First Lieutenant, John F. Keavy Second Lieutenant, Leroy Wood

The armory then became a busy place; whipping the new men into shape, for both companies were determined to win the most (coveted)

of all prizes—the Brown Cup.

The major and his staff were not idle, for they were making preparations for the series of successful drills which followed. The Efficiency Drill was held Nov. 26; Company B. prize drill on December 29; Company A prize drill on February 13, and the Freshman drill on June 4.

The Battalion drill, the largest of the season, was held in the Arm-

ory, and was above the expectations of everyone.

Company B went stubbornly down to defeat in this drill. The individual winners of the prizes were, Talbot Medal, Corporal Kenneth Channell, Company B; Fyans Medal; Drummer Carter Noble, and Honorable Mention, Corporal Arthur Shea, Company B.

As a fitting climax for this successful year the Battalion will go to Oak Bluffs for its annual encampment, July 4. There the Cadets will receive training which it is impossible to give in the limited space of the

Armory.

DEBATING TEAM

Stop! Look! and Listen! Stop you may not; look you need not; but listen you shall. Not for nothing do our young debaters bear the palm in speaking, nor, having overcome so many obstacles, are they to be denied at the last minute.

Late in the middle of the year, with no regular debating society in existence, and having no visible means of support, the 1920 Debating Team was called into existence by an urgent challenge to debate. Disregarding inconveniences and overcoming all obstacles, the Forum was resurrected, and, in a few weeks of intensive training and campaigning, material was gathered, a team selected, and funds raised.

But troubles did not cease here. At the last instant it became necessary to change the date and place of the approaching debate. Nothing daunted, however, by this setback, the team set to work and with laudable thoroughness arranged the event, bearing itself in the trial with remarkable ability and reflecting honor upon the school and itself.

And now, having listened, let us pass on, wishing our young friends the merited success which we feel confident they will attain.

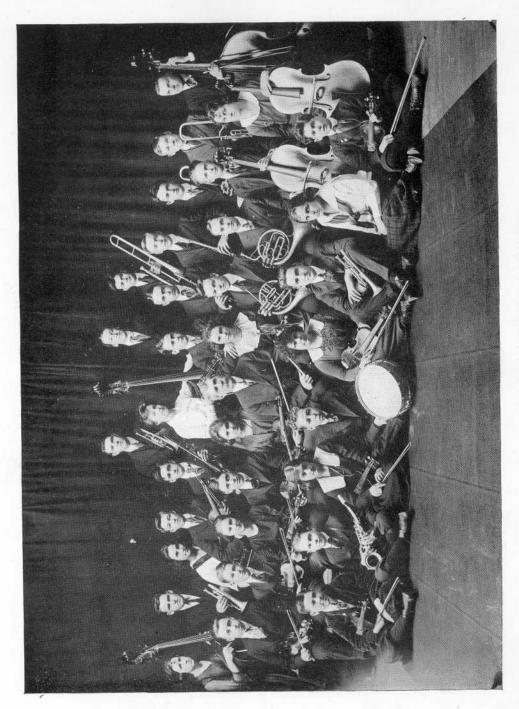

The officers for the Forum this year are the following:

FORUM DEBATING SOCIETY

President, Charles E. Dowd Vice-President, J. Raymond Coppinger Secretary, Jeremiah Harrington Director, Lawrence J. Jackson

DEBATING TEAM 1919-20

Captain, J. Raymond Coppinger Charles E. Dowd JOSEPH A. COHEN Alternate, ABRAHAM MINES

B. M. C. LUBILE HIGH SCHOOL ORCHESTRA

The class of '20 is fortunate in having one of the largest and best orchestras ever formed since the founding of the school. Under the able leadership of Mr. Titcomb, the orchestra has attained to handling a high grade of music, unusually well.

Besides the weekly rehearsals and the few assemblies, the orchestra has given three concerts. On April 1st, 1920, the members of the musical club entertained at the Home for the Aged, where they were warmly received. On the evening of the same day they played at the debate between Taunton and Durfee High.

The climax of the orchestral year came on February 20, when the club, assisted by our classmate, Miss Florence Tibbetts, gave its annual concert. Miss Tibbetts' rich contralto voice, added to the fine playing of the ensemble, made the concert a success.

The personnel of the Club is as follows:

Violins: Cecile Forest, Joseph Dubitsky, John Cantwell, Mary Doran, Hugo Goly, Francis Milligan, Howard Kelly, William Sweeney, William Biltcliffe, Milton Westgate, Louise Sweeney, Thelma Watkins, William Tumley, Cornelius Sullivan.

Violas: Margaret Stockman, Chester Lees.

'Cello: Mabel Sowter.

Basses: Helen Titcomb, Estelle Robinson, Robert MacMillan.

Flute: Robert Healy.

Clarinets: Henry Wade, Abbott Larter.

Horns: Allen Smith, Robert Estes, George W. MacDuff.

Cornets: George Rigby, James Lord, Wilson Sherman, Deborah Healy,

Trombones: Edward Whalen, Waverley Root, Elmer Hopewell.

Saxophone: Charles Wade.

Drums: Carter Noble.

Piano: Raymond Coppinger.

Organ: Hazel Wilcox.

6MMERGAL CLUB

The Commercial Club was formed by students in the senior, junior and secretarial classes of the Commercial Department this year. Its purpose is to improve the students in fluency of speech, increase their knowledge of commercial and political subjects, and create interest in Fall River's business problems and commercial future. This is done by means of debates, impersonations and talks given by students, and lectures given by influential business men of the city. The social side is not neglected.

The organization elects its own officers, and these officers preside and run all meetings of the club. The officers who were elected for 1920 were Francis Fitzgerald, '20, president; Earl Griffiths, '21, vice-president; Jessie Monarch, '20, secretary, and Mr. C. B. Edgeworth of the faculty, treasurer.

The club meets the first and third Wednesdays of every month, the seventh period and at the close of school. Topics of the day are open for discussion and the students express their own opinion regarding them.

Included in the speakers who have talked before the club this year are the Manager of the Chamber of Commerce and the local manager of the New England Telephone & Telegraph Co.

The club has proved to be quite a popular one among the students, and all indications point to a permanent and successful organization.

Freshman: "Say, buddy, how long is your back fence?"

Sophomore: "Oh, about a yard, I guess."

Wilcox: "This is a poor type-writer, the letter 'I' is all worn out." Sullivan: "What else could you expect,—it used to belong to Wetherbee."

Milne: "My 'Math' course is very bad for the eyes."

Smith: "What are you taking?"

Milne: "Studying figures at the shows."

Lord: "Say, Mr. Carroll, how long could I live without brains?"

Mr. Carroll: "That remains to be seen."

You can lead a horse to water, But you cannot make him drink; You can send a boy to Durfee But you cannot make him think.

The Freshmen may have brains,
And think that "Math" is bunk,
But when it comes to exams,
I wonder why they flunk.

Mr. Swick: "What three words are used among Durfee students most?"

Borden: "I don't know."
Mr. Swick: "Correct."

Wetherbee (Impatiently looking around the laboratory): "I can't find the H2O bottle anywhere."

Mr. Carroll: "You might try the faucet."

OVERHEARD AT THE CADET DRILL

Grant: "I'm afraid you do not like my dancing." She: "Upon the contrary, I find it very amusing."

FRESHMAN POETRY

When first he came to see her,
He showed a timid heart;
And when the lights were burning low,
They sat this far apart.

But when their love grew warmer,
And they learned the joy of a kiss,
They knocked out all the spaces
And satupcloselikethis.

Freshman (in Adams' Bookstore): "Have you Lamb's Tales?"
Proprietor: "What do you think this is, a meatshop?"

Mr. MacIntyre, reprimanding a scholar, called him a scoundrel. The Scholar: "Sir, I'm not as big a scoundrel as you"— then the culprit stopped, but finally added—"take me to be".
"Put your words closer together," said the teacher.

Freshman: "So long, I must be off."
Sophomore: "I always thought you were."

Some pass a course by study, Some kid along the prof; But the bird who asks the questions, He's the one that has it soft.

Little deeds of kindness
For teachers now and then,
Will often raise your standing
From a zero to a ten.

Mr. Goddard: "Is there anyone in this class who does not believe that the earth is round?"

Littlefield: "Yes, I'm one."

Mr. Goddard: "Then you think it's flat?"

Littlefield: "No, crooked."

The boy stood on the ballroom floor, His head was in a whirl, His eyes and mouth were full of hair, His arms were full of girl.

Ich weiss nicht was soll es bedeuten
Dass ich so traurig bin:
Ich habe mein lesson vergessen
Und muss rely on mein binn,
Miss Locke is kuhl and she chuckles;
Und ruhig lacht she inglee
Dann she thinks dass she will man flaunken
Ach Himmel, kan das sein me?

He who courts and runs away,
May court again another day;
But he who weds and courts girls still,
May go to court against his will.

Smith: "Hey, Mac, why are you wearing those loud socks?" MacMillan: "To keep my feet from going to sleep."

If you do not like these jokes,
And their dryness makes you groan,
Just stroll around occasionally
With good ones of your own.

Mr. O'Gorman, explaining the cruelty of slavery, said: "Now, for instance, here is a poor old broken down man."

A knock on the door interrupts, and in walks John Bruce.

THE TWENTY-THIRD PSALM

Mr. Wilbur is my teacher, I shall not pass, he maketh me to explain hard translations, and exposeth my ignorance before the class.

He restoreth my sorrow; he causeth me to give rules for my good sake. Yea, though I study till midnight, I shall gain no knowledge, for verbs and vocabularies sorely trouble me.

He prepareth a test for me in the presence of the whole school; he giveth me a low grade. My sorrow runneth over; surely sadness and gloom shall follow me all the days of my life, and I shall remain in the Latin class forever.

A SCHOLAR'S VERSION

Deep in our dusty dungeon, Down in the German room, We slave where the light, Makes perpetual night, At our infinite ill-chosen doom.

Our world is an ocean of paper, In sheets, and in books, and in quires; Our food and our drink, White glue and black ink, To satisfy teacher's desires.

We read and we figure till noon-day, We toil and we sweat until night, In a trance or a dream, We build up a theme, But always to find it's not right.

We wrestle with Spanish and German, And parlous "jiu jitsu" in French, The accents we lack, But we're there with the snack, Like the boys in a Picardy trench.

Alpha, Beta, Gamma, Delta

- A is for Almy, a girl so gay;
- B is for Boylan, not liking display;
- C stands for Cantwell, a musical chap;
- D equals Dowd, who's far worse than that.
- E is for Eldridge, a girl very tall.
- F is for Feeney, always seen at a ball;
- G equals Grant, the tallest cadet,
- H stands for Hampson, the kid full of pep;
- I equals Ivers, a joker, we'll say;
- J is for Jenness, we see every day.
- K stands for Keavy, in tactics well taught,
- L equals Leahy, a good little sport;
- M is for Murphy, a big football man,
- N is for Naden, who's only a fan.
- O means O'Brien, he's some athlete,
- P is for Pereira, whom no one can beat,
- Q is for Quinn, an athletic girl,
- R is for Reilly, who can dance with a whirl;
- S equals Sykes, an actor is he,
- T is for Tibbitts, a singer to be.
- U means Uditsky, a quiet sort of fellow,
- V means Van Blarcom, who never was yellow;
- W is for Wilcox, whose stature is small;
- Y is for Yoken, and that is all.

this ends the account of the Teniors
of 1920 — the smortest,
brightest etc. class that
ever war.

THE FALL RIVER SCHOOL OF COMMERCE, INC.

ACADEMY OF MUSIC BUILDING FALL RIVER, MASS.

THIS INSTITUTION enjoys the patronage of practically all the local High School Graduates who attend Business Schools, and the courses of instruction are especially adapted to meet the requirements of those who desire to prepare for high grade Private Secretarial or Government Positions along lines consistent with their previous preparation.

Our SHORT FINISHING COURSE for STENOGRAPHERS will prove invaluable to those who have taken up the COMMERCIAL BRANCHES in High School, and the splendid success attained by the keen, perceptive students who have availed themselves of this special training is proof-positive of the substantiality of our Educational and Employment Service.

THE BANKS, MILLS, BROKERS AND PUBLIC SERVICE CORPO-RATIONS patronize our employment bureau almost exclusively, and our graduates are thoroughly capable of passing Clerical and Stenographic Civil Service examinations without further instruction.

The General Environment bespeaks dignity and prosperity and THE FALL RIVER SCHOOL OF COMMERCE presents to the AMBITIOUS, DISCRIMINATING High School Graduate opportunities NOT OFFERED BY ANY OTHER BUSINESS TRAINING INSTITUTION IN THIS VICINITY.
